The above C1 Sum table summarizes the following activities:-

Revenue:

The actual year to date operational revenue as at end of second quarter is R238, 031 million and the year to date budget of R243, 917 million and this reflects a negative variance of R5, 886 million that can be attributed to property rates, service charges electricity and refuse removal that have positive variance of material figure. The following are the secondary revenue item categories reflecting a negative and positive material variance:

- Interest earned external investments: 48% unfavorable variance.
- Interest earned outstanding Debtors 76% favorable variance,
- Rental on Facilities and Equipment: 53% unfavorable
- License and Permits: 22% unfavorable variance
- Fines: 75% unfavorable variance
- Other revenue: 626% favorable variance

Operating Expenditure

The year to date operational expenditure as at end of second quarter amounts to R183, 904 million and the year to date budget is R179, 946 million. This reflects a favorable variance of R3, 958 million that translates to 2% overspending variance. The variance is attributed to non-incorporation of depreciation amount for second quarter and over spending on contracted services. The municipality is however, in a process of linking the Asset Management system with core financial system so that the depreciation calculated on the initial system can be interfaced to the financial system and this will assist in doing away with the practice of calculating depreciation only at year end.

All other expenditure line items are performing almost in line with the year to date budget since the variance thereof is less than 10% except for the following:

- Employee related cost: 10% over performance variance
- Other materials: 17% under performance variance
- Finance Charges: 75% under performance variance
- Transfers and subsidies: 209% over performance variance

With regards to the over performance variance on contracted services, the municipality needs to reduce the level of reliance on consultants as outlined in the Treasury Instruction letter number 01.

Capital Expenditure

The year to date actual capital expenditure as at end of second quarter amounts to R51, 015 million and the year to date budget amounts to R42, 030 million and this gives rise to 21% over performance variance.

Surplus/Deficit

Taking the above into consideration, the net operating surplus for the quarter is R22, 595 million that is mainly attributed to receipt of unconditional grant - equitable share and over performance on MIG in the reporting period.

Debtors

Outstanding debtors' is comprised of consumer and sundry debtors. The total outstanding debtors as at end of second quarter amounts to R54, 167 million and this shows an increase of R6, 479 million as compared to R47, 688 million as at end of 2016/17 financial year.

Consumer debtors is made up of service charges and property rates that amount to R41, 297 million and other debtors amounting to R12, 870 Million.

Creditors

All creditors are paid within 30 days of receipt of invoice as required by MFMA and as a result, our creditor's age analysis does not have figures.

Table C2 and C3 measure the monthly actuals and year to date actuals against the year to date budget. The aforementioned budget tables are presented by standard classification and vote respectively for both revenue and expenditure. The variances are all reflected in the year-to-date variance column.

The financial results portrayed in the two tables are the same as those in other tables (i.e. it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury's standard classification.
