The above C1 Sum table summarizes the following activities:-

Revenue:

The actual year to date operational revenue as at end of June 2017 is R318, 065 million and the year to date budget of R339, 557 million and this reflects a negative variance of R21, 491 Million that reflects poor performance of the operational revenue for the reporting period. The following are the secondary revenue item categories reflecting a negative and material variance:

- Interest earned external investments: 18% unfavorable variance,
- Licenses and permits: 2% unfavorable variance
- Rental on Facilities and Equipment: 30% unfavorable variance
- Fines: 61% unfavorable variance
- Service charges refuse revenue: 61% unfavorable variance
- Property Rates: 57% unfavorable variance
- Other revenue: 31% unfavorable variance

Operating Expenditure

The year to date operational expenditure as at end of June 2017 amounts to R304, 206 million and the year to date budget is R378, 434 million. This reflects an unfavorable variance of R74, 227 million that translates to 20% under spending variance as compared to the projected expenditure. Cognizance should be taken that the above spending does not include "expenditure" on non-cash items and as a results, the expenditure is the actual spending that resulted in actual outflow of cash. The municipality is in a process of linking the Asset Management system with core financial system so that the depreciation calculated on the initial system can be interfaced to the financial system and this will assist in doing away with the practice of calculating depreciation only at year end.

All other expenditure line items are performing almost in line with the year to date budget since the variance thereof is less than 10% except for the following:

- Other materials: 48% under performance variance
- Finance Charges: 58% under performance variance
- Transfer and Grants: 61% under performance variance
- Contracted services: 11% over performance variance
- Bulk purchase: 17% underspending variance

With regards to the over performance variance on contracted services, the municipality needs to reduce the level of reliance on consultants as outlined in the Treasury Instruction letter number 01.

Capital Expenditure

The year to date actual capital expenditure as at end of June 2017 amounts to R62, 705 million and the year to date budget amounts to R87, 620 million and this gives rise to 28% under spending variance. This is attributed to Upgrading of Hlogotlou stadium with a budget of R10 million (funded by MIG) that is not yet spent as well as the electrification projects (funded by INEP) that spent R3, 585 Million. The under spending on projects that are funded by grants will lead the municipality to applying for roll over and as a result, this might have negative impact on future allocations.

Surplus/Deficit

Taking the above into consideration, the net operating surplus for the month is R9, 458 million.

Debtors

Outstanding debtors' is comprised of consumer and sundry debtors. The total outstanding debtors as at end of June 2017 amounts to R33, 174 million and this shows an decrease of R30, 397 Million as compared to R63, 571 million as at end of 2015/16 financial year, and the decrease is mainly attributed to debt written off.

Creditors

All creditors are paid within 30 days of receipt of invoice as required by MFMA and as a result, our creditor's age analysis does not have figures.

Table C2 and C3 measure the quarterly actuals and year to date actuals against the year to date budget. The aforementioned budget tables are presented by standard classification and vote respectively for both revenue and expenditure. The variances are all reflected in the year-to-date variance column.

The financial results portrayed in the two tables are the same as those in other tables (i.e. it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury's standard classification.

Table C4 provides budget performance details for revenue by source and expenditure by type. For revenue, the main deviations from budget projections are on service charges refuse removal,

fines, and interest earned – external investments, license and permits, and other revenue. In the case of expenditure the following line items reflect material variance; Finance charges, contracted services, other material, and other expenditure.

Reasons for deviations will only be provided for material variances and a variance is deemed to be material if it is 10% and more.

The above two tables (Table C5 Capex and C5C) present capital expenditure performance by Municipal vote, standard classification and the funding thereof. For the fourth quarter, R2, 472 million spending was incurred and the year to date expenditure is R62, 705 million whilst the year to date budget is R87, 620 million and this gave rise to unfavorable spending variance of R24, 914 Million that translates to 28%.

The above graph shows the components of sources of finance for capital budget. Of the total capital budget of R87, 537 million, R54, 754 million is funded from Municipal Infrastructure grant, R11, 404 million from INEP and R21, 380 million from own revenue and the spending per source of finance is presented in the above graph.

The above graph compares the 2015/16 and 2016/17 monthly capital expenditure performance. The graphs shows performance and/or spending improvement from the month of July to October, and then the spending declined from November 2016 to June 2017 as compared to 2015/16 capital budget spending pattern.

Table C7 presents details pertaining to cash flow performance. As at end of fourth quarter, the net cash inflow from operating activities is R42, 814 million whilst net cash outflow from investing activities is R59, 152 million that is mainly comprised of capital expenditure movement, and cash outflow from financing activities is R3, 338 million. The cash and cash equivalent held at end of June 2017 amounted to R19, 806 million and the net effect of the above cash flows is cash outflow movement of R19, 677 million. The cash and cash equivalent at end of the reporting period of R 19, 806 million is made up of cash amounting to R4, 175 million and short term investments of R15, 631 million as presented in Table A6 under current assets.

Supporting table SC3 provides a breakdown of the debtors. The outstanding debtors as at end of June amount to R33, 174 million. The debtors' book is made up as follows:

- Rates 44,71%
- Electricity 34,31%
- Rental 3,23%
- Refuse removal 3,71%
- Interest on Debtors 24,13%

The debtors' age analysis is graphically presented below.

The initial graph compares debtors' age analysis for 2015/16 financial year and 2016/17 (as at end of June 2017) whilst the latter shows monthly movement of debtors for both the current financial year and the 2015/16 financial year. The latter graph portrays a picture that indicates that the municipality is still struggling to collect debts owed to it and/or to keep debtors book at minimal and this is evident from debtors' book that is forever above the 2015/16 financial year debtors' book line except for end of fourth quarter where the debtor book has dropped off significantly due to write off that was effected on bad debts.

Below is list of top twenty debtors that contribute significantly to the ever growing debt book.

Supporting table SC13a and SC13b provide details of capital expenditure in terms of asset classification based on new assets and renewal of existing assets; while table SC13c provide details of expenditure performance on repairs and maintenance by asset classification and Table SC13d presents expenditure on depreciation and asset impairment. These tables present the capital programme, and assets management and performance of the Municipality.

The total expenditure for new capital projects amounts to R32, 439 million and the year to date budget is R41, 840 million which reflects under spending variance of R9, 400 million that translates to 22% variance. The year to date actuals on renewal of existing assets amounts R30, 266 million with the year to date budget of R45, 780 million and this reflects under spending variance of R15, 514 million that translates to 34% variance.

The year to date actual expenditure on repairs and maintenance is R616 thousand and the year to date budget is R11, 723 million, reflecting under spending variance of R13, 498 million that translates to 13%.

The depreciation and asset impairment is only projected to have movement at year end and hence the zero year to date actuals and budget thereof. This is basically attributed to unavailability of monthly depreciation figures and the absence of a link between asset management system and core financial system, however the municipality is working towards linking the two systems.
