**The above C1 Sum table summarizes the following activities: -**

**Revenue:**

The actual year to date operational revenue as at end of September is R178, 716 million and the year to date budget of R214, 640 million and this reflects a negative variance of R35, 924 million which is mostly attributable to equitable shares received amounting to R130, 361 million. The following are the secondary revenue item categories reflecting a positive and negative material variance:

- Interest earned - external investments: 24% unfavorable variance,
- Interest earned – outstanding debtors: 45% favorable variance,
- Rental on Facilities and Equipment: 12% unfavorable variance,
- Fines, penalties and forfeits: 100% unfavorable variance
- Services Charges – electricity revenue: 14% unfavorable variance
- Services Charges – refuse revenue: 2% unfavorable variance
- Licenses and permits: 30% favorable variance
- Property rates: 31% favorable variance
- Other revenue: 34% favorable
- Transfer and subsidies: 8% unfavorable

**Operating Expenditure**

The year to date operational expenditure as at end of September amounts to R119,400 million and the year to date budget is R159,691 million. This reflects underspending variance of R40,291 million that translates to 25% variance. The variance is attributed underspending variance on depreciation and asset impairment and debt impairment that the municipality is still facing a challenge regarding the computation of monthly movement of the two accounts.

All other expenditure line items are performing almost in line with the year to date budget since the variance thereof is less than 10% except for the following:

- Employee related costs: 15% under performance
- Debt impairment: 100% under performance
- Depreciation and asset impairment: 100% under performance
- Finance charges: 85% under performance
- Other material: 58% over performance
- Bulk purchase: 41% under performance
- Contracted services: 16% over performance
- Transfer and subsidies: 60% under performance
- Other expenditure: 16% under performance

The above material variances are explained more in detail on Supporting Tables SC 1

## **Capital Expenditure**

The year to date actual capital expenditure as at end of September 2022 amounts to R22, 693 million and the year to date budget amounts to R33,034 million and this gives rise to R10,341 million under performance.

## **Surplus/Deficit**

Taking the above into consideration, the net operating surplus for the month of September is R83,760 million that is mainly attributed over performance on capital and operating expenditure in the reporting period.

## **Debtors**

Table C2 and C3 measure the monthly actuals and year to date actuals against the year to date budget. The aforementioned budget tables are presented by standard classification and vote respectively for both revenue and expenditure. The variances are all reflected in the year-to-date variance column.

The financial results portrayed in the two tables are the same as those in other tables (i.e. it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury's standard classification).

Table C4 provides budget performance details for revenue by source and expenditure by type. For revenue, the main deviations from budget projections are on property rates, service charges – electricity, refuse, rental of facilities and equipment, interest earned – external investments, interest on outstanding debtors, fines, penalties and forfeits, licenses and permits and other revenue.

In the case of expenditure, the following line items reflect material variance; Remuneration of councilors, Bulk purchases, other expenditure, debt impairment, depreciation and asset impairment, finance charges, employee related costs, other materials, and transfer and subsidies.

Reasons for deviations will only be provided for material variances and a variance is deemed to be material if it is 10% and more.

The above two tables (Table C5 Capex and C5C) present capital expenditure performance by Municipal vote, standard classification and the funding thereof. For the month of September 2022, R8, 103 million spending is incurred and the year to date expenditure amounts to R22 693 million whilst the year to date budget is R33 034 million and this gave rise to under spending variance of R10,341 million that translates to 31%.

**Figure 1: Capital expenditure by source**

The above graph shows the components of sources of finance for capital budget. Of the total capital budget of R98, 041 million, R62, 606 million is funded from Municipal Infrastructure grant, R17, 000 million from Integrated National Electrification Programme and R18, 435 million from own revenue and the spending per source of finance is presented in the above graph.

The above table shows that community wealth amounts to R1,219 billion, total liabilities R247, million and the total assets R1, 466 billion. Non-current liabilities are mainly made up of borrowing and provisions for long service award, landfill site. Taking the current liabilities and current assets together, the municipality has current ratio of 1.8:1 that is within the acceptable norm of 2:1. The municipality still needs to keep the current liabilities low and increase the current assets to strengthen the liquidity ratio.

Table C7 presents details pertaining to cash flow performance. As at end of September 2022, the net cash inflow from operating activities is R69,648 million whilst net cash outflow from investing activities is R22,693 million that is mainly comprised of capital expenditure movement, and cash outflow from financing activities is R542 thousands. The cash and cash equivalent held at end of September 2022 amounted to R45,010 million and the net effect of the above cash flows is cash inflow movement of 38, 412 million. The cash and cash equivalent at end of the reporting period of R45,010 million, is mainly made up of cash in the primary bank account amounting to R16,622 with a short term investment amounting to R28, 388 million at the end of September 2022.

## PART 2: SUPPORTING TABLES

Supporting Table: SC 1 Material Variance Explanations

Description	Variance	Reasons for material deviations	Remedial or corrective steps/remarks
<b>Revenue By Source</b>			
Property rates	31%	The projected monthly revenue appear to be lower in light of the actual revenue performance	The municipality should sustain the revenue collection and reconsider the monthly proctions during the main budget adjustment.
Service charges - electricity revenue	-14%	The projected monthly revenue appear to be higher in light of the actual revenue performance	The municipality should encourages customers to pay their electricity bills when the due and come up with strategies to do away with illegal connections in the prepaid areas.
Service charges - refuse revenue	-2%	The actual revenue generated is lower than the projected monthly revenue	No remedial action is needed as the amount is immaterial.
Rental of facilities and equipment	-12%	The actual revenue generated is less than the projected monthly revenue and the majority of the rented assets are not at arm's length transactions	The municipality should look into the revenue generated on their rental of facilities to see if they generate cash as they are rented out
Interest earned - external investments	-25%	The municipality has invested in different short term portfolio investment.	The municipality shoud draft cash flow projections plan which will assist if there is a need to invest
Interest earned - outstanding debtors	-45%	The projected revenue is more than the actual revenue generated.	The municipality should encourage customers to pay the accounts on time to avoid incurring interest.
Fines, penalties and forfeits	-100%	The contract of the speed fine cameras has been appointed, however there still slow collection in terms of revenue collection.	The municipality shiould strategies on how to speed up the revenue collection under this item. There should be road blocks in the groblersdal entrences where cashiers are available to collection on outstanding traffic fines.
Licences and permits	30%	The actual revenue generated is more than the projected monthly revenue	No remedial action is needed since the collection is higher than the projections thereof and the variance is immeterial.
Transfers and subsidies	-8%	The equitable share trenches received is slightly higher than the projections thereof.	The budget unit should make use of the payment schedule during budget preparations.
Other revenue	34%	The actual revenue generated is more than the projected monthly revenue.	No remedial action is needed as the variance is positive.

Supporting table SC3 provides a breakdown of the debtors. The outstanding debtors as at end of September amount to R163,273 million. The debtors' book is made up as follows:

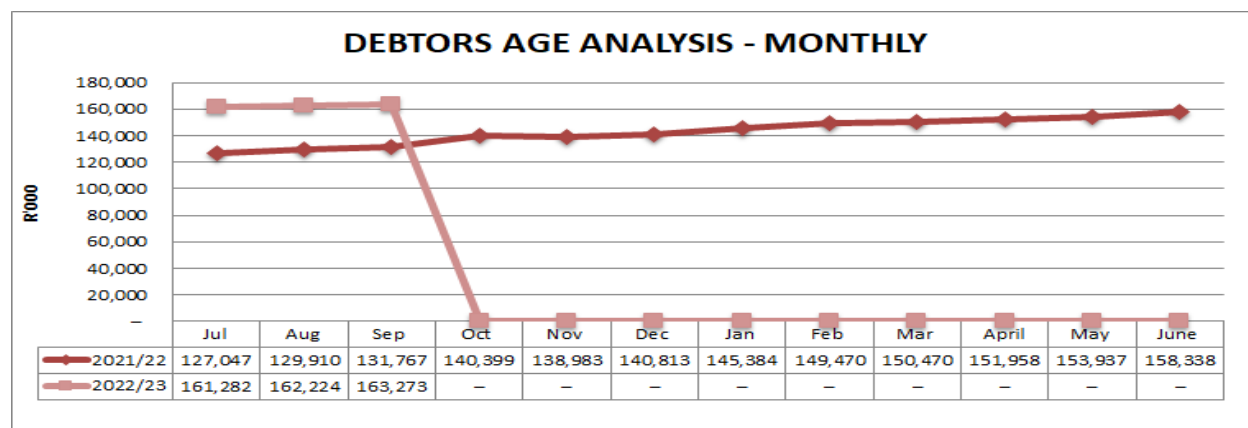

- Rates 41%
- Electricity 8%
- Rental 1%
- Refuse removal 14%
- Interest on Debtors 36%
- Other 1%

The debtors' age analysis is graphically presented below.

**Figure 3: Debtors age analysis**

**Figure 4: Monthly debtors book**

The initial graph compares debtors' age analysis for 2021/22 financial year and 2022/23 (as at end of September 2022) whilst the latter shows monthly movement of debtors for both the current financial year and the 2021/22 financial year. The debtors book is materially less than the 2022/23 monthly figures and this is an indication that the municipality is not performing well in terms of collection.

Below is list of top twenty debtors that contribute significantly to the ever-growing debt book.

Supporting table SC4 provides creditors age analysis. In terms of section 65 of the MFMA all creditors must be paid within 30 days of receiving an invoice. The municipality is having challenges relating to extraction of creditors age analysis and below are the contributing factors:

- Goods received vouchers (GRV) are only processed on the system as and when we are about to pay and this approach distorts the entire picture of ageing our creditors since the system will count the number of days taken to process an invoice from the date the GRV is processed.
- The contracted services are to be paid through order system payments and that should feed the age analysis module.

Proposal was made that the municipality need to maintain the invoice register that should be used for manually updating the creditors age analysis and the Budget and Treasury department is in a process of implementing the proposed register.

## TOP CREDITORS PAID

The Municipality had an amount of R25, 237 million as outstanding creditors by the end of the month of September 2022.

Table SC8 provides details for Remuneration of Councilors and Employee related cost. The total salaries, allowances and benefits paid as at end of September 2022 amounts to 45,861 million and the year to date budget is R52,739 million and the expenditure for remuneration of councilors amounts to R6,542 million while the year to date budget is R6,395 million. The year to date actual expenditure for senior managers is R858 thousand and the year to date budget thereof is R1, 778 million. There are four senior managerial vacant positions (Budget and Treasury, Corporate services, Infrastructure and Planning) and this is causing underspending variance on budget performance for senior management. The year to date actuals for other municipal staff is R38,461 million and the year to date budget is R44,566 million. The remuneration of councilors and other municipal staff category has under spending variance, and there are four vacant positions in the senior management level and the positions should be filled in the new financial year 2022/23.

Supporting table SC13a, SC13b and SC13e provide details of capital expenditure in terms of asset classification based on new assets and renewal of existing assets; while table SC13c provide details of expenditure performance on repairs and maintenance by asset classification and Table SC13d presents expenditure on depreciation and asset impairment. These tables present the capital programme, and assets management and performance of the Municipality.

The total expenditure for new capital projects amounts to R3, 272 and the year to date budget is R5,108 million that reflects over spending variance of R1, 836 million that translates to 36% variance.

The year to date actuals on renewal of existing assets amounts R6, 008 million and with the year to date budget of R11,010 million and this reflects over spending variance of R5,092 million that translates to 45.9% variance.

The year to date actual expenditure on repairs and maintenance is R13,861 million, and the year to date budget is R9,908 million, reflecting under spending variance of R3,953 million that translates to 39.9%.

The year to date actual expenditure on upgrading of existing assets is R13,413 million and the year to date budget is R16,827 million, reflecting over spending variance of R3,414 million that translates to 20%.

The year to date actual expenditure on depreciation and asset impairment is R0 and the year to date budget is R14, 945 million, reflecting spending variance of R14, 945 million, that translates to 100% which means the integration between asset management system and core financial system is done annually and this is not the requirements for implementation of mSCOA. This is basically mean that the municipality is partially complying with some of mSCOA requirements.
