Speaker Address Concerns of Waalkraal Community

In an effort to address the various service delivery issues facing the community of ward 04 Waalkraal, Speaker of Council, Cllr Dieketseng Mashego, led a team of public servants which included Municipal Councillors, Senior managers and staff currently conducting consultative meeting with the community to find lasting solutions to the challenges.

This initiative is aimed at improving the quality of services provided to residents and identifying areas where service delivery can be improved as well as taking action to address these issues by bringing services to the people.

Waalkraal communities were given a platform to raise their concerns on the status of Road, Electricity and water provision in the community and making decision of service delivery improvements.

Responding to the residents' concerns, Speaker Mashego said: "We're here as part of the accelerated service delivery programme to ensure that all historical service delivery backlogs that exist are being attended to with urgency.

The Community was motivated to attend these gatherings because important information to assist communities is shared in such platforms.
