Table C2 and C3 measure the monthly actuals and year to date actuals against the year-todate budget. The aforementioned budget tables are presented by standard classification and vote respectively for both revenue and expenditure. The variances are all reflected in the year-to-date variance column.

The financial results portrayed in the two tables are the same as those in other tables (i.e. it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury's standard classification.

Table C4 provides budget performance details for revenue by source and expenditure by type. For revenue, the main deviations from budget projections are on property rates, service charges - electricity, refuse, rental of facilities and equipment, interest earned - external investments, interest on outstanding debtors, fines, penalties and forfeits, licenses and permits and other revenue.

In the case of expenditure, the following line items reflect material variance, Remuneration of councilors, Bulk purchases, other expenditure, debt impairment, depreciation and asset impairment, finance charges, employee related costs, other materials, and transfer and subsidies.

Reasons for deviations will only be provided for material variances and a variance is deemed to be material if it is 10% and more.
