The above C1 Sum table summarizes the following activities:-

Revenue:

The actual year to date operational revenue as at end of November is R160, 297 million and the year to date budget of R229, 684 million and this reflects a negative variance of R69, 387 million that can be attributed to property rates, service charges electricity and refuse removal that have positive variance of material figure. The following are the secondary revenue item categories reflecting a negative and positive material variance:

- Interest earned - external investments: 42% unfavorable variance,
- Interest earned – outstanding Debtors 88% favorable variance,
- Rental on Facilities and Equipment: 42% unfavorable variance,
- Transfer and Subsidies: 45% unfavorable variance
- License and Permits: 7% unfavorable variance
- Fines: 71% unfavorable variance
- Other revenue: 242% favorable variance

Operating Expenditure

The year to date operational expenditure as at end of November amounts to R153, 027 million and the year to date budget is R145, 692 million. This reflects a favorable variance of R7, 335 million that translates to 5% overspending variance. The variance is attributed to non-incorporation of depreciation amount and over spending on contracted services. The municipality is however, in a process of linking the Asset Management system with core financial system so that the depreciation calculated on the initial system can be interfaced to the financial system and this will assist in doing away with the practice of calculating depreciation only at year end.

All other expenditure line items are performing almost in line with the year to date budget since the variance thereof is less than 10% except for the following:

- Employee related cost: 16% over performance variance
- Other materials: 31% under performance variance
- Contracted Services: 144% over performance variance
- Other Expenditure: 10% over performance variance
- Finance Charges: 71% under performance variance
- Transfers and subsidies: 216% over performance variance

With regards to the over performance variance on contracted services, the municipality needs to reduce the level of reliance on consultants as outlined in the Treasury Instruction letter number 01.

Capital Expenditure

The year to date actual capital expenditure as at end of November amounts to R31, 148 million and the year to date budget amounts to R31, 144 million and this gives rise to 34 thousand over performance variance.

Surplus/Deficit

Taking the above into consideration, the net operating surplus for the November is R51, 813 million that is mainly attributed to receipt of unconditional grant - equitable share and over performance on MIG in the reporting period.

Debtors

Outstanding debtors' is comprised of consumer and sundry debtors. The total outstanding debtors as at end of November amounts to R50, 746 million and this shows an increase of R3, 058 million as compared to R47, 688 million as at end of 2016/17 financial year.

Consumer debtors is made up of service charges and property rates that amount to R38, 386 million and other debtors amounting to R12, 359 Million.

Creditors

All creditors are paid within 30 days of receipt of invoice as required by MFMA and as a result, our creditor's age analysis does not have figures.

Table C2 and C3 measure the monthly actuals and year to date actuals against the year to date budget. The aforementioned budget tables are presented by standard classification and vote respectively for both revenue and expenditure. The variances are all reflected in the year-to-date variance column.

The financial results portrayed in the two tables are the same as those in other tables (i.e. it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury’s standard classification).

Table C4 provides budget performance details for revenue by source and expenditure by type. For revenue, the main deviations from budget projections are on property services, service charges refuse removal, fines, and interest earned – external investments, outstanding debtors and other revenue. In the case of expenditure the following line items reflect material variance; Finance charges, contracted services, other material, transfer and subsidies, employee related cost and other expenditure.

Reasons for deviations will only be provided for material variances and a variance is deemed to be material if it is 10% and more.

Vote 7 - Developmental Planning	-	-	-	-	-	-	-	-	-
Vote 8 - Executive Support	583	-	-	-	-	-	-	-	-
Total Capital single-year expenditure	28 297	23 763	-	2 448	7 670	8 824	(1 154)	-13%	23 763
Total Capital Expenditure	80 799	77 302	-	9 287	31 148	31 114	34	0%	77 302

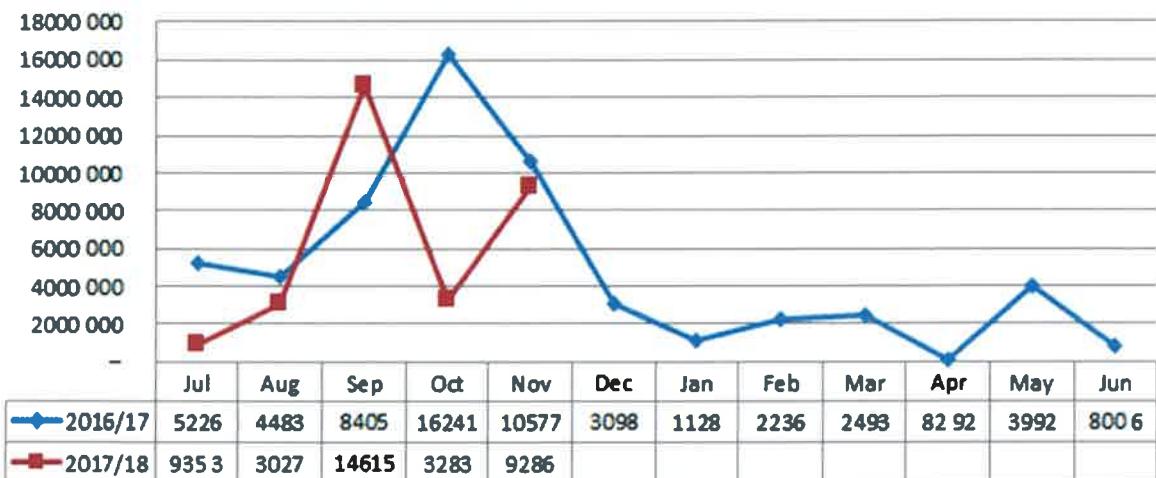

The above two tables (Table C5 Capex and C5C) present capital expenditure performance by Municipal vote, standard classification and the funding thereof. For the month of November 2017, R9, 287 million spending was incurred and that increased the year to date expenditure to R31, 148 million whilst the year to date budget is R31, 114 million and this gave rise to over spending variance of R 34 thousand that translates to 0.1%.

CAPEX - SOF

The above graph shows the components of sources of finance for capital budget. Of the total capital budget of R86, 004 million, R55, 860 million is funded from Municipal Infrastructure grant, R15, 000 million from INEP and R 15, 144 million from own revenue and the spending per source of finance is presented in the above graph.

CAPEX - MONTHLY

The above graph compares the 2016/17 and 2017/18 monthly capital expenditure performance. The graph shows performance and/or spending improvement pattern for first quarter and significant decline and the beginning of the second quarter then uphill at November when comparing the 2017/18 and 2016/17 results.

Cash/cash equivalents at month/year end:	20 913	32 968	—		1 496	30 655			28 217

Table C7 presents details pertaining to cash flow performance. As at end of November 2017, the net cash inflow from operating activities is R12, 152 million whilst net cash outflow from investing activities is R29, 399 million that is mainly comprised of capital expenditure movement, and cash outflow from financing activities is R2, 170 million. The cash and cash equivalent held at end of November 2017 amounted to R1, 496 million and the net effect of the above cash flows is cash outflow movement of R19, 417 million. The cash and cash equivalent at end of the reporting period of R 1, 496 million is made up of cash amounting to R1, 496 million as presented in Table A6 under current assets.

Supporting table SC3 provides a breakdown of the debtors. The outstanding debtors as at end of NOVEMBER amount to R50, 745 million. The debtors' book is made up as follows:

- Rates 44%
- Electricity 22%
- Rental 2%
- Refuse removal 9%
- Interest on Debtors 26%
- Other -4%

The debtors' age analysis is graphically presented below.

The initial graph compares debtors' age analysis for 2016/17 financial year and 2017/18 (as at end of November 2017) whilst the latter shows monthly movement of debtors for both the current financial year and the 2016/17 financial year.

The debtors book is materially less than the 2016/17 monthly figures and this is attributed to debtors write off done at end of 2016/17 financial year. The debtor's amount increased significantly for the first quarter and slight downhill for October and increased for November.

Below is list of top twenty debtors that contribute significantly to the ever growing debt book.

TOP TWENTY DEBTORS

Supporting table SC13a, SC13b and SC13e provide details of capital expenditure in terms of asset classification based on new assets and renewal of existing assets; while table SC13c provide details of expenditure performance on repairs and maintenance by asset classification and Table SC13d presents expenditure on depreciation and asset impairment. These tables present the capital programme, and assets management and performance of the Municipality.

The total expenditure for new capital projects amounts to R12, 824 million and the year to date budget is R13, 154 million which reflects under spending variance of R331 thousand that translates to 3% variance. The year to date actuals on renewal of existing assets amounts R18, 209 million and with the year to date budget of R16, 132 million and this reflects over spending variance of R2, 077 million that translates to 13% variance.

The year to date actual expenditure on repairs and maintenance is R4, 511 million and the year to date budget is R6, 738 million, reflecting under spending variance of R2, 227 million that translates to 33%.

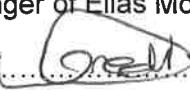

The year to date actual expenditure on upgrading of existing assets is R115 thousand and the year to date budget is R1, 827 million, reflecting under spending variance of R1, 712 million that translates to 94%.

The depreciation and asset impairment will only have actuals once the integration between Asset management system and core financial system is done and this is one of the requirements for implementation of mSCOA. This is basically mean that the municipality is not complying with some of mSCOA requirements.

Quality certificate

I, RAMAKGAHLELA MINAH MAREDI, the Municipal Manager of **ELIAS MOTSOALEDI LOCAL MUNICIPALITY**, hereby certify that the monthly budget statement report and supporting documentation for the month of November 2017 has been prepared in accordance with the Municipal Finance Management Act and the regulations made under the Act.

Municipal Manager of Elias Motsoaledi Local Municipality (LIM 472)

Signature
