## PART 1: IN - YEAR REPORT

### PURPOSE

To report to the Council and submit to the National and Provincial Treasury on the monthly financial performance of the Municipality as required by Section 71 of the Municipal Finance Management Act.

### EXECUTIVE SUMMARY

Section 71 of the Municipal Finance Management Act deals with requirements for in-year reporting and further states that the Accounting Officer of the Municipality must by no later than 10 working days after end of each month submit to the October or of the municipality and relevant Provincial Treasury, the monthly budget statement in the prescribed format on the state of the municipality's financial results.

### IN YEAR BUDGET STATEMENT TABLES

DESCRIPTION	2025/26

**The above C1 Sum table summarizes the following activities: -**

**Revenue:**

The actual year to date operational revenue as at the end of October is R263, 925 million and the year to date budget of R285, 973 million and this reflects a negative variance of R22, 049 million which is mostly attributable to equitable shares received amounting to R156, 621 million. The following are the secondary revenue item categories reflecting a positive and negative material variance:

- Property rates: 3% favorable variance
- Services Charges – electricity revenue: 1% unfavorable variance
- Services Charges – refuse revenue: 2% unfavorable variance
- Rental from fixed assets: 35% unfavorable variance
- Interest earned external investment: 68% favorable variance
- Interest earned outstanding debtors: 31% favorable variance
- Fines, penalties and forfeits: 70% unfavorable variance
- Licenses and permits: 11% favorable variance.
- Transfer and subsidies: 1% unfavorable variance
- Other revenue: 49% unfavorable variance
- Gains on disposal of assets: 439% unfavorable variance

**Operating Expenditure**

The year-to-date operational expenditure as at end of October amounts to R214, 982 million and the year to date budget is R249, 684 million. This reflects the overspending variance of R34, 702 million that translates to 14% variance. The variance is attributed to the overspending of finance charges. The municipality is still facing a challenge regarding the computation of monthly movement of the debt impairment.

All other expenditure line items are performing almost in line with the year to date budget since the variance thereof is less than 10% except for the following.

- Remuneration of councilors: 12% overspending
- Debt impairment: 100% overspending
- Finance charges : 91% overspending.
- Bulk purchases: 16% overspending
- Other material: 27% overspending.
- Contracted services: 24% underspending
- Transfer and subsidies: 43% overspending.
- Operational cost: 17% underspending
- Losses on disposal of assets: 100% overspending

The above material variances are explained more in detail on Supporting Tables SC 1

## **Capital Expenditure**

The year to date actual capital expenditure as at end of October amounts to R33, 821 million and the year to date budget amounts to R31, 002 million and this gives rise to R2, 819 million under performance.

## **Surplus/Deficit**

Taking the above into consideration, the net operating profit for the month of October is R82, 539 million that is mainly attributed to underperformance on capital expenditure in the reporting period.

## **Debtors**

Outstanding debtors are comprised of consumer and sundry debtors. The total outstanding debtors at end of October amounts to R265,600 million and this shows a increase of R16,478 million as compared to R249, 122 million as at end of 2024-25 financial year, and it shows an increase of R 1 195 thousands as compared to R264,405 of last month.

Consumer debtors are made up of service charges and property rates that amount to R164,564 million and other debtors amounting to R101, 036 million. Debtors relating to traffic fines are reported as part of other debtors presented under current assets on table C6 and as a result, do not form part of consumer debtors.

## **Creditors**

All creditors were paid within 30 days of receipt of the invoice in the month of October as required by MFMA and as a result there are no outstanding creditors. The creditors mentioned above exclude payments made to creditors relating to retentions.

Table C2 and C3 measure the monthly actuals and year to date actuals against the year-to-date budget. The aforementioned budget tables are presented by standard classification and vote respectively for both revenue and expenditure. The variances are all reflected in the year-to-date variance column.

The financial results portrayed in the two tables are the same as those in other tables (i.e. it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury's standard classification).

**Table C4: Financial Performance by Revenue Source and Expenditure Type**

Table C4 provides budget performance details for revenue by source and expenditure by type. For revenue, the main positive deviations from budget projections are on property rates, service charges – electricity, refuse, rental of facilities and equipment, interest earned – external investments, interest on outstanding debtors, fines, penalties and forfeits, licenses and permits .

In the case of expenditure, the following line items reflect negative material variance, debt impairment,, finance charges, and losses

Reasons for deviations will only be provided for material variances and a variance is deemed to be material if it is 10% and more.

The above two tables (Table C5 Capex and C5C) present capital expenditure performance by municipal vote, standard classification and the funding thereof. For the month of October, R2,109 million expenditure is incurred and the year-to-date expenditure amounts to R33, 821 whilst the year to date budget is R31, 002 million and this gave rise to under spending variance of R2,819 million that translates to 9%.

**Figure 1: Capital expenditure by source**

The above graph shows the components of sources of finance for capital budget. Of the total capital budget of R98, 829 million, R67, 807 million is funded from Municipal Infrastructure Grant, R20, 283 million from Integrated National Electrification Programme, R4, 000 million from Energy Efficiency and Demand Side Management grant.

**Figure 2: Monthly capital expenditure**

The above graph compares the 2024-25 and 2025-26 monthly capital expenditure performance.

<b>TOTAL COMMUNITY WEALTH/EQUITY</b>	<b>1 316 927</b>	<b>1 705 585</b>	<b>–</b>	<b>1 313 487</b>	<b>1 705 585</b>

The above table shows that community wealth amounts to R1 313 487 billion, total liabilities R361,752 million and the total assets R1 675,239 million. Non-current liabilities are mainly made up of borrowing, provisions for long service award and provisions for landfill sites. Taking the current liabilities and current assets together, the municipality has a current ratio of 2.2:1 which meets the acceptable norm of 2:1. The municipality needs to keep the current liabilities low and increase the current assets to strengthen the liquidity ratio.

Table C7 presents details pertaining to cash flow performance. As at end of October, the net cash inflow from operating activities is R136, 737 million whilst net cash outflow from investing activities is R38,524 million that is mainly comprised of capital expenditure movement, and cash outflow from financing activities is R306, thousands. The cash and cash equivalent held at end of October amounted to R107, 116 million and the net effect of the above cash flows is cash inflow movement of R9, 209 million. The cash and cash equivalent at end of the reporting period of R107, 116 million, is mainly made up of cash in the primary bank account amounting to R5, 149 million and short-term investments amounting to R101, 967 million at the end of October.

Description	Variance	Reasons for material deviations	Remedial or corrective steps/remarks
<b>Revenue By Source</b>			
Property rates	3%	The actual revenue generated is less than the projected monthly revenue	The municipality should ensure revenue is collected in all business areas where revenue is billed
Service charges - electricity revenue	-1%	The projected monthly revenue appear to be higher in light of the actual revenue performance	The municipality should ensure revenue is collected in all business areas where they utilize our electricity
Service charges - refuse revenue	-2%	The actual revenue generated is less than the projected monthly revenue	The municipality should ensure revenue is collected in all business areas where skips bins are located
Rental of facilities and equipment	-35%	The actual revenue generated is less than the projected monthly revenue and the majority of the rented assets are not at arm's length transactions	The municipal needs to ensure all the municipal and rented equipments generate revenue as hired out.
Interest earned - external investments	68%	The municipality has invested in three different investment portfolios with Standard bank, and ABSA and the actual interest generated is less than the budgeted revenue	The municipality should draft cash flow projections plan which will assist if there is a need to invest during the budget preparations to avoice variances.
Interest earned - outstanding debtors	31%	The actual revenue generated is less than the projected monthly revenue.	The municipality should encouraging customers to pay the accounts on time to avoid incurring interest.
Fines, penalties and forfeits	-70%	The actual revenue issued on speed cameras is less than the pojections. The contract of the speed fine cameras has been appointed, however there still slow collection in terms of revenue collection.	The municipality should strategies on how to speed up the revenue collection under this item. There should be road blocks in the groblersdal entrences where cashiers are available to collection on outstanding traffic fines.
Licences and permits	11%	The actual revenue generated is less than the projected monthly revenue	The municipal department of town planning should come up with measures to ensure that all vendors operating within municipal services area are issued with licences and permits and pay fees.
Transfers and subsidies	-1%	The equitable share trenches received is less than the projections thereof.	The budget team should request LPT DORA to guide in the projections during the final budget preparations.
Other revenue	-49%	The actual revenue generated is less than the projected monthly revenue.	The municipality should ensure that all write offs on the outstanding debts are true reflections of what should be written off.
<b>Expenditure By Type</b>			
Employee related costs	0%	The actual expenditure incurred on employee related costs is more than the projections thereof	The municipality has appointed on vacant posts.
Remuneration of councillors	-12%	The actual expenditure incurred on remuneration of councillors is less than the projected monthly expenditure	The municipality should budget according to the number of councillors that they have
Debt impairment	-100%	Debt impairment has not been calculated since the beginning of the year.	The municipality should introduce the method of calculating debt impairment on monthly basis to avoid the the variances.
Depreciation & asset impairment	-7%	The actual depreciation calculated is less than the projections thereof	The municipality has introduced the method of calculating depreciation on monthly basis as they Asset module contract is with the system vendor.
Finance charges	-91%	Finance charges is mainly for finance lease and the municipality has a new lease contract.the actual is less than the budgeted.	The municipality should encourage the service provider to submit invoices before month end sytem closure so payments are processed and captured on the system to avoid variances.
Bulk purchases	-16%	The municipal licenced electrification areas have increased and the projections are less than the actual expenditure, the monthly payments were captured before month end.	The municipality should continue to encourage the service provider (Eskom) to submit invoices before month end sytem closure so payments are processed and captured on the system to avoid variances.
Other materials	-27%	The municipal licenced electrification areas have increased and the projections are more than the actual expenditure.	The municipality should ensure that all the municipal assets are maintained to keep their useful life as they are.
Contracted services	24%	The actual expenditure incurred is more than the projected monthly expenditure	Majority of contractors are paid after month end. The municipality should encourage contractors to submit invoices on time to avoid variances and ultimately improves cash flow management.
Transfers and subsidies	-43%	The actual expenditure incurred is less than the projected monthly expenditure	No remedial action is needed
Other expenditure	17%	The actual expenditure incurred is more than the projected monthly expenditure	The municipality should identify expenditure lead to significant variances and improve on those items to avoid the variances.
Losses	-100%	The are no losses that have incurred in this month	The municipality should continue to come up with the remedies that they will use to identify expenditure lead to significant variances and improve on those items to avoid the variances.

## Supporting Table: SC 1 Material Variance Explanations (Continuation)

Description	Variance Reasons for material deviations		Remedial or corrective steps/remarks
<b>Capital Expenditure</b>			
National Government	16%	The projections on capital grants is less than the spending thereof.	The majority of municipal national funded capital projects are at the completion stage
Internally generated funds	-67%	There actual spending is less than the projections	The municipality should implement all the internal projects to ensure service delivery is achieved.
<b>Cash Flow</b>			
Property rates	-13%	The actual collection rate on property rates is less than the projected rate	The municipality should keep on improving on the actual collection on residential and business areas and encourage customers to pay their accounts when they are due.
Service charges	2%	The collection rate on service charges is more than the projected rate	The municipality should come up with strategies to use for collecting on licenced municipal areas on electricity billings and refuse removal
Other revenue	-8%	The collection rate on leased assets is less than the projected amount	The municipality should come up with the strategies to ensure that all leased municipal assets are rented out as projected
Government - operating	0%	The receipted trenches of operational grants are in line with the projections thereof.	The municipality should make use of DORA during the draft and final budget preparations.
Government - Capital	-67%	The receipted trenches of capital grants are not in line with the projections.	The municipality should make use of DORA during the draft and final budget preparations.
Interest	-7%	Interest on other revenue is under projected to the over collection from other debtors	No remedial action is needed
Suppliers and employees	64%	The actual costs incurred is less than the projected costs and the variance is caused by vacant posts on employee related costs, and other variances in materials and other expenditure.	The variance is caused by outstanding payment on Contracted services, Other materials and general expenses therefore the municipality should avoid closing the year end with outstanding creditors
Finance charges	80%	The finance costs which is for finance lease contracts has outstanding payments due to late payments submissions.	The municipality should encourage Kgwadi ya madiba to send invoices on time and the fleet unit should prepare invoices on time to avoid the material variances.
Transfers and Grants	77%	The payments relating to this account are less than the projections thereof	Municipality should develop a strategy to pay on time to avoid interest
Capital assets	81%	The projected capital expenditure on capex is more than the actual spending thereof.	The municipality should encourage implementation of all capital projects.
Increase (decrease) in consumer deposits	-98%	The actual payments on consumer deposit is less than the projections thereof	No remedial action is needed
Repayment of borrowing	95%	The projections is not in line with the amortisation schedule	The municipality should make use of amortisation during budget preparations and ensure the payments are inline with the amortisation schedule.

Supporting table SC3 provides a breakdown of the debtors. The outstanding debtors as at end of October amount to R261, 348 million. The debtors' book is made up as follows:

- Rates 40%
- Electricity 2%
- Rental 1%
- Refuse removal 16%
- Interest on outstanding debtors 38%
- Other 3%

The debtors' age analysis is graphically presented below.

**Figure 3: Debtors age analysis**

**Figure 4: Monthly debtors' book**

The initial graph compares debtors' age analysis for 2024-25 financial year and 2025-26 (as at end of October) whilst the latter shows monthly movement of debtors for both the current financial year and the 2024-25 financial year. The debtor's book is more than the 2024/25 monthly figures and this is an indication that the municipality is performing well in terms of collection.

Below is list of the top twenty debtors that contribute significantly to the ever-growing debt book.

<b>Total Capital Expenditure on upgrading of existing assets</b>	108 584	55 771	–	1 475	25 585	17 795	(7 790)	-44%	55 771

Supporting table SC13a, SC13b and SC13e provide details of capital expenditure in terms of asset classification based on new assets and renewal of existing assets; while table SC13c provide details of expenditure performance on repairs and maintenance by asset classification and Table SC13d presents expenditure on depreciation and asset impairment. These tables present the capital programme, and assets management and performance of the Municipality.

The total expenditure for new capital projects amounts to R7, 126 million and the year-to-date budget is R13,080 million.

The total expenditure for renewal of existing assets amounts to R1,109 million and the year to budget amounts to R 126 thousand for the 2025/26 financial year.

The year-to-date actual expenditure on repairs and maintenance is R15, 444 million, and the year-to-date budget is R14,628 million, reflecting an overspending variance of R 817 thousand that translates to 6%.

The year-to-date actual expenditure on upgrading of existing assets is R25, 585 million and the year-to-date budget is R17, 795 million, reflecting a negative spending variance of R7,790 million that translates to 44%.

The year-to-date actual expenditure on depreciation and asset impairment is R19, 815 million and the year-to-date budget is R20, 953 million, reflecting a positive spending variance of R1, 138 million that translates to 5% which means the integration between asset management system and core financial system is working which is one of the requirements for implementation of mSCOA. This is basically mean that the municipality is complying mSCOA requirements in terms of the depreciation method
