TITLE: MAYOR CLLR JULIA MATHEBE WISHES THE MATRIC CLASS OF 2017 WELL.

It is that time of the year again when our Matriculants sit for their final examinations after a long and hard year of studying. Matric is the time for all learners to reflect on their schooling careers and plan for their future careers. Learners should also be proud to sit for this exam because many students did not complete the schooling cycle.

Our beloved late former president Nelson Mandela once declared that, "Education is the most powerful weapon which you can use to change the world." Going forward opportunities will be endless and only your dreams of a better future will place you at the door steps of academic and visionary excellence.

On behalf of Elias Motsoaledi Local Municipality and the entire Community of the Municipality, I wish to extend my well wishes to all those who would be seating for their matric examination. We have confidence in you that you will make us proud and produce results that would put our municipality and district on the map of excellence.

I urge parents, guardians and family members to give our Matriculants a chance to study and prepare for this career defining examinations.

We support the matric class of 2017.
