Needy learners receive new school bags in Moteti

“To improve the education of our children as a fundamental right and encouraging them to concentrate on their subjects till they reach to the sky, is our dream.”

These were the words from Mr Paul, Manager Roots Butchery in Kraaifontein when visiting Rebone and Nkadimeng Primary schools in Moteti Elias Motsoaledi Municipal area yesterday with a donation of 100 school bags to the needy learners.

“Today we have decided to give back to those learners who, we have noted, normally go to school without backpacks.

“You sometimes find them in the morning carrying their schoolbooks in plastic bags and so forth,” says Mr Paul, Manager Roots Butchery in Kwaggafontein.

Ward Cllr Thete encouraged adults in the community to help develop their children so that they will become responsible citizens for our country, she emphasised the importance of donating to destitute and less privileged children as it gave them dignity and motivated them to work hard academically.

The event was attended by Junior Thete, Cllr Thabo kgagara, MMC responsible for social development Cllr Ndosi and Cllr Masotja from Thembisile Hani Municipality, CDWs Ward Committee members and SGBs.
