## **1. INTRODUCTION**

---

The development, implementation and monitoring of a Service Delivery and Budget Implementation Plan (SDBIP) is required by the Municipal Finance Management Act (MFMA). In terms of Circular 13 of National Treasury, "the SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and budget are fully aligned with each other, as required by the MFMA."

As the budget gives effect to the strategic priorities of the municipality it is important to supplement the budget and the IDP with a management and implementation plan. The SDBIP serves as the commitment by the Municipality, which includes the administration, council and community, whereby the intended objectives and projected achievements are expressed in order to ensure that desired outcomes over the long term are achieved and these are implemented by the administration over the next twelve months.

The SDBIP provides the basis for measuring performance in service delivery against quarterly targets and implementing the budget based on monthly projections. Circular 13 further suggests that "the SDBIP provides the vital link between the mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the mayor, councilor's, municipal manager, senior managers and community."

## **2. LEGISLATION**

---

The Municipal Finance Management Act (MFMA) defines a Service Delivery and Budget Implementation Plan (SDBIP) as: a detailed plan approved by the mayor of a municipality in terms of section 53 (1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget, and which must indicate-

- (a) projections for each month of:
  - (i) revenue to be collected, by source; and
  - (ii) operational and capital expenditure, by vote;

- (b) service delivery targets and performance indicators for each quarter

Section 53 of the MFMA stipulates that the Mayor should approve the SDBIP within 28 days after the approval of the budget. The Mayor must also ensure that the revenue and expenditure projections for each month and the service delivery targets and performance indicators as set out in the SDBIP are made public within 14 days after their approval.

The following National Treasury prescriptions, in terms of MFMA Circular 13, are applicable to the Elias Motsoaledi Local Municipality:

1. Monthly projections of revenue to be collected by source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote<sup>1</sup> \*
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Ward information for expenditure and service delivery
5. Detailed capital works plan broken down by ward over three years

---

<sup>1</sup> Section 1 of the MFMA defines a "vote" as:

a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and  
b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned

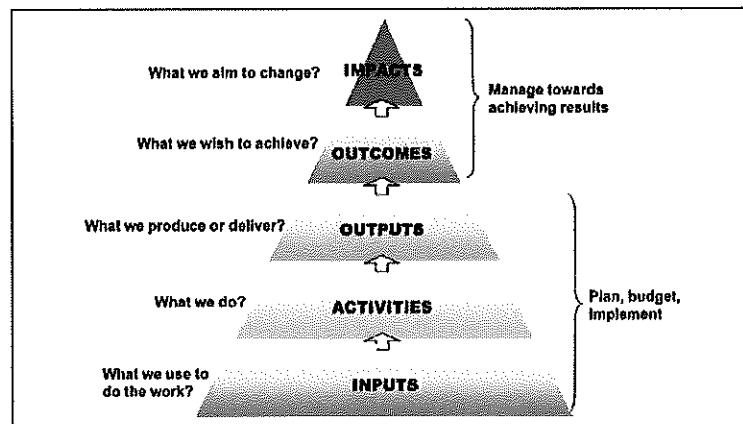

### **3. METHODOLOGY AND CONTENT**

The development of the SDBIP was influenced by the Priorities, Strategic Objectives, Programme Objectives and Strategies contained in the IDP ensuring progress towards the achievement thereof. The SDBIP of the Elias Motsoaledi Local Municipality is aligned to the Key Performance Areas (KPAs) as prescribed by the Performance Management Guide for Municipalities of 2001, with the addition of Spatial Rationale as another KPA to be focused upon.

The methodology followed by the municipality in the development of the SDBIP is in line with the Logic Model methodology proposed by National Treasury as contained in the Framework for Managing Programme Performance Information<sup>2</sup>(FMPPI) that was published in May 2007. The accompanying figure as an extract from the FMPPI is hereby indicated.

The Logic Model was followed whereby desired impacts were identified for each strategic objective with measurements and targets contributing to the achievement of those impacts. This was followed by the identification of programmes and associated outcomes and measurements and targets contributing to the achievement of those outcomes. Then SMART programme objectives and short, medium and long terms strategies were developed to achieve the outcomes and associated output indicators and targets.

Thereafter projects were identified with quarterly activities and required budget as well as required human resources, furniture and equipment (inputs). This process was used to prioritise projects, capital items to be acquired and the personnel budget.

The strategies of the municipality, which are linked to programmes, measurement and targets as well as projects focus on and are aligned to the National and Provincial priorities.

The key performance indicators and targets as well as the projects that are contained in this SDBIP are to measure, monitor and report on the implementation of the outcomes and strategies identified in the strategic phase of the IDP. Indicators are assigned quarterly targets and responsibilities to monitor performance.

The SDBIP is described as a layered plan. The top layer deals with consolidated service delivery targets and time frames as indicated on this plan. The second layer of the SDBIP, that need not be made public, will deal with the breakdown of more details of outputs per department and will be contained in the departmental managers SDBIPs.

## **4. VISION, MISSION AND VALUES**

---

The strategic vision of the organisation sets the long term goal the Municipality wants to achieve. Elias Motsoaledi Local Municipality's vision is one that "wishes" for a future that deals with the many challenges and needs of the community in building the first city since 1994. The **Vision** of Elias Motsoaledi Local Municipality is:

**"The agro-economical and ecotourism heartland"**

**Motto:**  
**The sunshine valley**

Elias Motsoaledi Local Municipality has summarized its objectives into the following mission statement that should provide everyone involved with the municipality (either as employee, stakeholder or community member) with the answer to justify the reason for its existence.

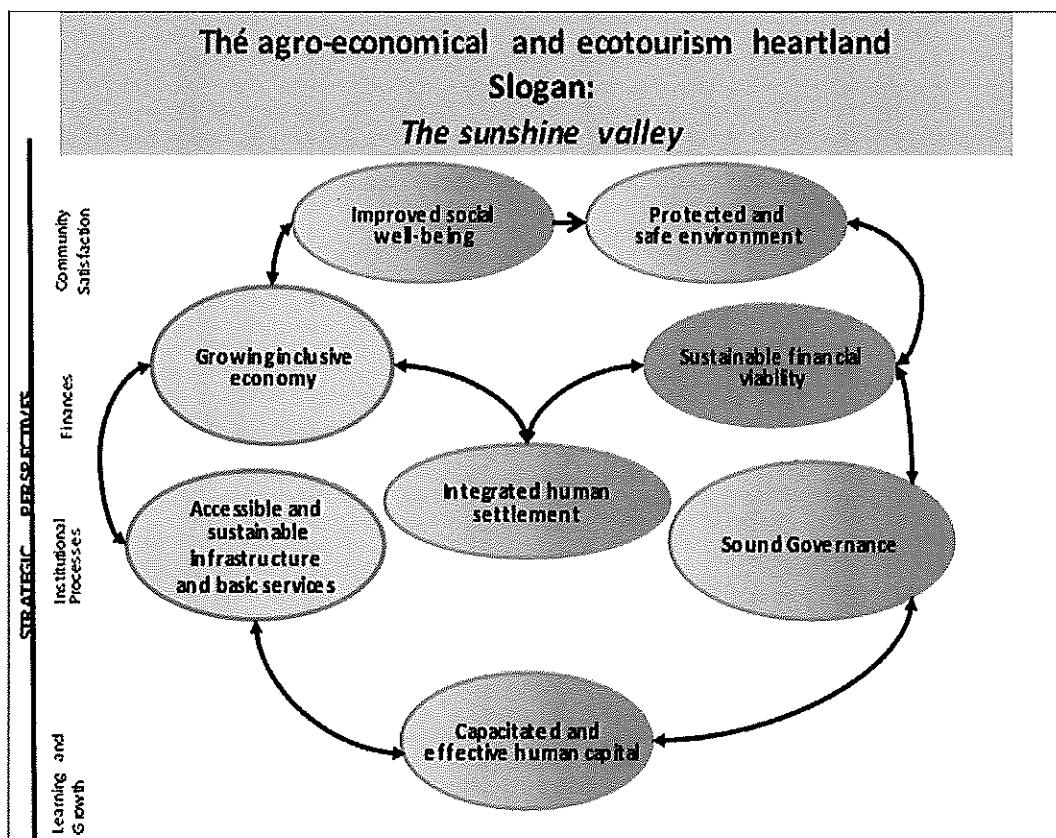

- To ensure provision of sustainable services
- To deepen democracy through public participation and communication
- Provision of services in a transparent, fair and accountable manner
- Provide public value for money
- To create a conducive environment for job creation and economic growth

The **Value** system of Elias Motsoaledi Local Municipality is articulated in the table below as follows:

<b>Value</b>	<b>Description</b>
People first	Everybody is empowered within the whole community
Transparency	Invite and encourage public sharing and democratic participation in council's activities.
Commitment	Focus and concentrate on council's core activities in a consistent manner.
Integrity	Conduct council's business in a fair, responsible, flexible, equitable and honest manner.
Accountability	Report regularly to all stakeholders regarding council's actual performance.
Environmental Conscious	Taking care of the sensitive environment to ensure that the vision is achieved.
Empowerment	To be seen to be empowering our people, knowledge is power.
Service excellence	In all aspects of conducting ourselves and our mandate, we will focus on service excellence.
Change	In order to move to a better quality life, something different needs to be done from what is being done now. In this regard change will be the main driver of doing things differently

## 5. STRATEGIC OBJECTIVES

The Strategy Map below developed during the Strategic Planning Workshop held on the 18th-19th January 2016 inclusive depicts the Strategic Objectives on how the Elias Motsoaledi Local Municipality will be able to achieve its vision. These objectives were positioned in terms of the Balanced Scorecard Perspectives being: Learning and Growth; Institutional Processes; Financial results and Community Satisfaction. All the outputs contained in the SDBIP are aligned to the attainment of one or more of these objectives:

## 6. STRATEGIC ALIGNMENT

## **7. PROJECTED MONTHLY REVENUE AND EXPENDITURE**

---

One of the most important and basic priorities for any municipality is to collect all its revenue as budgeted for – the failure to collect all such revenue will undermine the ability of the municipality to deliver on services. The municipality MUST ensure that it has instituted measures to achieve monthly revenue targets for each revenue source. The revenue projections relate to actual cash expected to be collected and should reconcile to the cash flow statement approved with the budget documentation. The reason for specifying actual revenue collected rather than accrued (billed) revenue is to ensure that expenditure does not exceed actual income.

The expenditure projections relate to cash paid and should reconcile to the cash flow (reconciliation between revenue and expenditure per month). It is necessary to manage and monitor cash flow on a monthly basis to ensure that expenditure do not exceed income, which if not properly managed might lead to the municipality running into financial difficulties.

This section of the document is based upon the Budget MBRR B1 Schedules that serve as supporting documentation for the budget, in particular Schedules SB 12 - SB 17 and will deal with the following:

Monthly Revenue Projections:	Monthly Expenditure Projections:	Cash Flow Projections:
a. Revenue by source; b. Revenue by vote; c. Revenue in terms of standard classifications.	a. Expenditure by type; b. Overall expenditure: i. By vote ii. In terms of standard classifications c. Capital expenditure: i. By vote ii. In terms of standard classifications	a. Cash receipts by source b. Cash payments by type

The SDBIP information on revenue and expenditure will be monitored and reported monthly in terms of section 71 of the MFMA

## **8. SERVICE DELIVERY AND PERFORMANCE INDICATORS**

The high level non-financial measurable performance objectives in the form of service delivery targets and other performance indicators form part of this section of the SDBIP. These indicators and targets will be cascaded to departmental scorecards, which will be used for internal monitoring of the organisation and relevant individuals. The provision is made under section 54 (1)(C) of the MFMA that the mayor must consider and, make any revisions to the service delivery and budget implementation plan, provided that the revisions to the service delivery targets and performance indicators in the plan may only be made with the approval of the council following approval of an adjustment budget.

## 9. DETAILED CAPITAL WORKS PLAN

The Municipality is faced with serious financial constraints to cater for all KPIs in terms of capital allocations. The institution has developed a three year infrastructure development capital projects that will be funded through MIG, INEP and own revenue allocations. Some of the projects have been registered whilst others are still in the process of registration.

The list of projects indicated below is from municipal departments, however budget allocation is not sufficient. Projections for the outer years have been made although they will be reviewed when developing the 2018/19 IDP document. The budget has been reviewed in line with the requirements of MSCOA (Municipal Standard Chart of Accounting).

## 10. CONCLUSION

The SDBIP is a vital monitoring tool for the mayor and council to monitor in-year performance of the municipality. The SDBIP gives meaning to the budget and the IDP and will inform both in-year reporting in terms of section 71 of MFMA (monthly reporting), section 72 of MFMA (mid-year report) and section 46 of MSA (end-of-year annual reports). This enables the Mayor and Municipal Manager to be pro-active and take remedial steps in the event of poor performance..

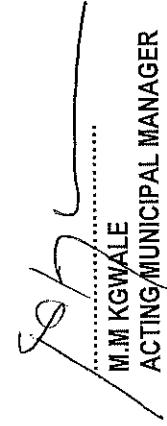

The SDBIP provides the top layer of information for the performance agreements of the municipal manager and senior managers, including the outputs and deadlines for which they will be held responsible. The SDBIP aims to ensure that managers are problem-solvers, who routinely look out for unanticipated problems and resolve them as soon as possible. The SDBIP also enables the council to monitor the performance of the municipality against quarterly targets on service delivery.
