CHAPTER 1
MAYOR'S FOREWORD AND EXECUTIVE
SUMMARY

1. MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: MAYOR'S FOREWORD

VISION

"The agro-economical and ecotourism heartland"

The vision statement of the municipality which serves as a blueprint for developmental programme is "The agro-economical and ecotourism heartland". It dawned upon the leadership that providing the complete account on the responsibilities conferred upon the entire municipality will always be a daunting task to the electorate. This report is therefore intended to attest to the collective efforts of the administrative and political arms of the municipality to progressively address the expectations of our people.

INTRODUCTION

It is a pleasure for me to present Elias Motsoaledi Local Municipality 2020/2021 Annual Report to our residents and other interested parties. The 2020/2021 annual report gives a detailed review of the municipality's activities on actual performance at the end of the fiscal year reporting on how the IDP and budget were implemented. It also describes the work of the municipality in fulfilling its Constitutional mandate and in meeting its obligations as dictated by the applicable local government legislation. Despite the effects of the economic difficult times, the municipality continued to provide quality service delivery to our community. Financial year 2020/2021 it has never been a pleasant year for us as the municipality, the country and the world at large due to Covid 19 pandemic. The national lockdown affected municipal services, service delivery and revenue collection negatively. For the financial year 2020/2021 municipal performance increased from 49% of the financial year 2019/2020 to 74% of 2020/2021.

KEY POLICY DEVELOPMENTS

During planning phase, the municipality had an engagement with the province and Sekhukhune district municipality to ensure alignment of provincial and municipal growth inclusive of development strategy hence the IDP has incorporated projects for both province and district municipality. The IDP was therefore tabled before council for adoption and was submitted to all sector departments and the district.

The Municipality 's performance is measured by satisfying its key developmental objectives which are as follows:

- Ensuring sustainable and qualitative service delivery
- Improving Local Economy through revised LED strategy
- Achieving an unqualified audit opinion
- Facilitating and regularly updating the indigent register accurately
- Ensuring that monies owed to the municipality is collected
- Continuing to participate in programmes of HIV and AIDS, TB, Cancer through Local Aids Council (LAC).
- Improving Records Management System in terms of NARSA Act
- Conducting Public Participation and ensure the functionality of all governance structures
- Fast tracking the implementation of infrastructure projects
- Strengthening the relationship with the traditional leaders

KEY SERVICE DELIVERY IMPROVEMENTS

The Municipality core service delivery functions are categorized into three: Electricity, Access roads and waste management. For the year under review 14.4km of roads were constructed. Municipality received an allocation of R54 561 018 of MIG grant for the year under review and the allocation was spent 100%. The following roads were constructed (Kgaphamadi, Tambo, Nyakuroane, Motetema, Mogaung and Laersdrift). 298 km gravelled and 674km bladed. Municipality is licensed to provide electricity in 2 wards, which are ward 13 and ward 30 (Groblersdal and Roosenekal areas), and the other 29 wards are Eskom licensed areas. Municipality has a backlog of 4% (3099) households without electricity. A total number of 55698 Households (96%) has access to Electricity (served both Eskom and EMLM).

Municipality received an allocation of R 15 million for INEP in 2020/2021 financial year for electrification projects. For the year under review, Municipality electrified the following villages: Mashemong, Zuma Park and Ntswelemotse using the allocated funds from INEP. The progress for electrification projects was at 100% at the end of the financial year. Municipality rely on Eskom to supply all other areas within EMLM whereby mostly the challenge is capacity on the network as certain areas could not be electrified until Eskom upgrade the networks. Municipality in collaboration with Department of Public Works created 71 work opportunities through EPWP and CWP 1064 programmes. Over and above the challenges faced during the year under review, Municipality managed to improve its audit opinion from Qualified to Unqualified audit opinion. As the EMLM team we really appreciate the improvement an looking forward to obtaining clean audit in the coming financial years.

PUBLIC PARTICIPATION

Municipality has 310 ward committees made out of 31 wards. Ward committees together with ward councillors conducts public meetings in their respective wards and submit monthly reports to the Speaker. The process of public participation was also affected by National lockdown where public gatherings were prohibited. Municipality resorted to media platforms to conduct public participation for 2021/2022 draft IDP and Budget to ensure that both the draft IDP and Budget are approved by council within the legislated timeframe. Communities were given an opportunity to raise their needs and submit them at municipal offices for incorporation in the 2021/2022 IDP and Budget. Public participation process is used to inform communities about success and challenges that municipality encounter during service delivery. Only prioritized and budgeted needs were incorporated in the reviewed 2021/2022 IDP and budget for implementation.

AGREEMENTS / PARTNERSHIPS

Municipality is partnering with NYDA for implementation of entrepreneurship artisan programme for youth development.

CONCLUSION

I wish to thank all councillors, municipal personnel , and resident's stakeholders in particular rate payers for their contributions to pay for services. Together we strive to take our municipality forward. As the municipality we appeal and erge our communities and fellow South African to always adhere to Covid 19 National Lockdown regulation for their safety and safety of others. I thank you.

COMPONENT B: EXECUTIVE SUMMARY

This report records the progress made by the Municipality in fulfilling its objectives as reflected in the IDP, the Budget and the Service Delivery and Budget Implementation Plan. It also reflects on challenges and priorities for the 2020/2021 financial year. Chapter 12 of MFMA Section 121 (1) stipulates that every municipality must for each financial year prepare an annual report in accordance with this Chapter. EMLM has compiled the annual report to comply with legislation to give members of community and all stakeholders the performance of the municipality as to how the IDP and budget was implemented.

The municipality is established to perform the following functions:

Schedule 4 Part B	Schedule 5 Part B
<ul style="list-style-type: none"> ▪ Air pollution ▪ Building regulations ▪ Child care facilities ▪ Electricity and gas reticulation ▪ Local tourism ▪ Municipal planning ▪ Municipal public transport ▪ Municipal public works ▪ Storm-water management systems in built-up areas ▪ Trading regulations 	<ul style="list-style-type: none"> ▪ Billboards and the display of advertisements in public places ▪ Cemeteries, funeral parlours and crematoria ▪ Cleansing ▪ Control of public nuisances ▪ Control of undertakings that sell liquor to the public ▪ Facilities for the accommodation, care and burial of animals ▪ Fencing and fences ▪ Local sport facilities ▪ Municipal parks and recreation ▪ Municipal road ▪ Public places ▪ Refuse removal, refuse dumps and solid waste disposal ▪ Street trading ▪ Street lighting ▪ Traffic and parking

Municipality does not have sharing of powers with any entity nor the sector departments. It only monitors some of the projects which are implemented by sector departments within the jurisdiction of the municipality such as housing projects. The municipality also signs the memorandum of understanding with the Department of Roads. The Municipality had a total revenue budget of R606, 129 million that was adjusted downwards to R594, 831 million during special budget adjustment. The actual revenue realized is R508, 935 million and this resulted in under-performance variance of R85, 896 million. All gazetted grants and subsidies amounting to R421, 367 million and they contributed a major portion of source of funding for budget of the municipality and the grants dependency rate was 74% on capital expenditure budget and 69% on revenue budget.

Municipality has unspent Integrated National Electrification Programme (INEP) of R441 thousand in 2020/21 financial. Other conditional grants, being Municipal Infrastructure Grant (MIG), Financial Management Grant (FMG) and Expanded Public Works Programme (EPWP) achieved 100% spending. Municipality received an award for MIG spending. Municipality has seven (07) approved senior manager positions. During financial year 2020/2021 four (04) senior manager's positions were vacant (CFO, Infrastructure, Executive support and Development planning). Municipality advertised the four vacant positions of senior managers to ensure that the positions are filled at an earlier time in the next financial year of 2021/2022. Five (05) senior managers concluded their performance agreements. The 2019/2020 annual performance assessments were conducted for three senior

managers and 2020/2021 Mid-year performance were also assessed. The outcome of the assessments were that, none of senior managers qualified for performance bonuses for the financial year 2019/2020 annual assessments.

Council has adopted the Risk Management Policy, Risk Management Strategy and Risk registers (Strategic and Operational) that enable management to proactively identify and respond appropriately to all significant risks that could impact on business objectives. In line with the approved Risk Management Policy and Risk Management Strategy a top down approach has been adopted in developing the risk profiles of the organization. The results of the strategic and operational assessments were used to compile a risk register. Below is the top five risks identified and mitigation measures were implemented to address the risks.

- Inadequate cash flow
- Inadequate municipal infrastructure
- Increased demand for services, potentially not aligned to budget
- Leaking of confidential information
- Low productivity

3.1.3. HOUSEHOLD DISTRIBUTION (Source: STATS SA community survey 2016)

The average household size of 4:1 person has been influenced by the fact that approximately (38, 7%) of households have two (2) or less occupants. This phenomenon could be as a result of several factors including incorrect baseline data or that younger people have set up their own homes but this is contrary to the statistics with respect to age which reflects that there is a large segment of youth (under 19 years) which comprises 47.9% of the total population.

1.2 SERVICE DELIVERY OVERVIEW

The Municipality core service delivery functions are categorized into three: Electricity, Access roads and waste management. For the year under review 14km of roads were constructed. 298.5km of roads were gravelled and 673.3 bladed. Municipality is licensed to provide electricity in 2 wards, which are ward 13 and ward 30 (Groblersdal and Roosenekal areas), the remaining 29 wards are Eskom licensed areas. Approximately 97, 5% of all the towns and villages comprising the EMLM have access to electricity supply. Municipality has a backlog of 4% (3099) households without electricity. Municipality is unable to totally eradicate electricity backlog due to mushrooming informal settlements and extensins in villages.

A total number of 55698 Households (96%) has access to Electricity (serviced both Eskom and EMLM). The municipality received an allocation of R 15 million for INEP in 2020/2021 financial year for electrification projects. For the year under review, municipality implemented 03 electrification projects at Mashemong, Zuma Park and Ntswelomotse using INEP grants. Municipality in collaboration with Department of Public Works created 71 work opportunities through EPWP and CWP 1064 programmes.

The municipality provides waste management services that include waste collection, street cleaning, clearing of illegal dumping, and waste disposal. Regular solid waste collection service is provided to business, institutions and households within the jurisdiction of the municipality. Waste collection from residential premises is carried out on a weekly basis and bi-weekly from business premises. Housing function is provided by the Department of Corporative Governance, Human Settlement and Traditional Affairs. Water and sanitation is provided by Sekhukhune District municipality. Reliance on other sectors departments for services impose is a major challenge to the municipality.

The municipality is responsible for 100% access to local roads which include all streets in town, townships and villages. It ensures regular maintenance of roads with the objective of addressing specific needs. The majority of of municipal roads are gravel roads.

1.3 FINANCIAL HEALTH OVERVIEW

EMLM is a rural municipality with high volume of outstanding consumer debtors and this leads to financial burden with none and/or under-payment for municipal services. The municipality has however developed the Revenue Enhancement Strategy to address this challenge since the outstanding debt affects the cash-flow status of the municipality.

The Municipality had a total revenue budget of R606, 129 million that was adjusted downwards to R594, 831 million during special budget adjustment. The actual revenue realized is R508, 935 million and this resulted in under-performance variance of R85, 896 million. All gazetted grants and subsidies amounting to R421, 367 million and they contributed a major portion of source of funding for budget of the municipality and the grants dependency rate was 74% on capital expenditure budget and 69% on revenue budget. The municipality have unspent Integrated National Electrification Programme (INEP) of R441 thousand in 2020/21 financial. Other conditional grants, being Municipal Infrastructure Grant (MIG), Financial Management Grant (FMG) and Expanded Public Works Programme (EPWP) achieved 100% spending.

EXPENDITURE

The original budget for operating expenditure was R512, 449 million that was adjusted upwards to R516, 328 million and the actual expenditure thereof is R411, 810 million. This reflects a positive variance of R104, 518 million. The major portion of operating expenditure is employee related cost that had original budget of R169, 749 million and the budget was adjusted downwards to R160, 564 million and the actual expenditure thereof is R150, 113 million and this reflected under-spending variance of R10, 451 million that is attributed to long service award and post retirement employee benefit obligation.

1.4 ORGANISATIONAL DEVELOPMENT OVERVIEW

1.4.1 HUMAN RESOURCES OVERVIEW

Human resource services for the municipality are reasonably effective and efficient, and relatively meet the expectations of the community at large. The department is responsible for attracting skilled workforce, motivating workforce to perform the required tasks and continuous capacity building of personnel. The Municipality in total has 353 employees inclusive of senior managers. The municipality has 07 critical positions (senior managers)

three (03) were filled and four (04) were vacant namely: Chief Financial Officer, Senior Manager Executive support, Senior Manager Infrastructure services, Senior Manager Planning Land and Economic development. By end of the financial year, all four vacant senior managers positions were advertised.

COMMITTEES

The Municipality has established the following committees as per the prescripts in strengthening the human resource management.

- Local Labour Forum Committee
- Occupational Health and Safety Committee
- Training and Development Committee
- Employment Equity Committee/ Affirmative Action Committee
- EAP committee
- Batho Pele committee

1.4.2 BURSARIES

For the year under review, municipality approved 50 university and TVET students for Mayoral Bursary. Each student is awarded R10 000 each.

WORKPLACE SKILLS PLAN (WSP)

Municipality has developed the WSP for the year for 2020/2021 and it was submitted to LGSETA during April (month) 2020 together with the Annual Training report. 33 employees (13 males and 20 females), and 13 councillors received various trainings. The Municipality received R104 881-00 in the form of rebates from LGSETA for the year under review.

1.5 AUDITOR GENERAL'S REPORT

For financial year 2020/2021, municipality received an Unqualified audit opinion which is an improvement from qualified audit opinion obtained during financial year 2019/2020. refer to the attached Auditor General report on chapter 6. Audit Action Plan is developed as a corrective measure for improvement on the findings.

12	Oversight report is submitted to relevant provincial councils	30 March 2022	Municipal Manager

It is also a compliance issue to meet the deadlines, as non-compliance will result in a negative audit opinion for the municipality. Meeting deadlines also assists with receiving feedback, comments and inputs from relevant stakeholders in time, and helps with rectifying mistakes whilst learning good practice at the same time.

The alignment of IDP, budget and the performance system is important, as the three documents are the strategic documents of the municipality. They serve as a guiding tool to determine whether the municipality is working towards achieving its set goals and objectives, while using the budget in the correct manner, so as to avoid wasting public funds. This is done through the performance management, where there will be quarterly reporting about the performance of the municipality and whether the budget is still aligned to the set objectives, or if it is being spent on something that is not helping achieve set objectives and goals. Performance management helps to give an early indication of non-performance, and allows for the taking of corrective measures as soon as possible.

CHAPTER 2

GOVERNANCE

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

2 Introduction

Section 151 (3) of the constitution states that the council of municipality has the right to govern on its own initiative, the local government affairs of the local community. EMLM Council comprises of the political and administrative components responsible for decision-making and implementation respectively. The Mayor is the political head of the Institution and the Speaker is the head of council. The Municipality has all the powers assigned to it in terms of the Constitution as well as relevant national and provincial legislations. The municipality has the authority to take any possible actions to effectively exercise powers assigned to it.

2.1 POLITICAL GOVERNANCE

Council established Section 80 committees, which provides general oversight, and monitor the activities in the municipality over both the administrative and executive arms of the municipality. These section 80 Committees are chaired by independent councillors other than members of executive committee. The following committees were established:

- Executive Committee (EXCO)
- Municipal Public Accounts Committee (MPAC)
- Section 79 portfolio committee
- Section 80 committee
- Corporate services Portfolio committee
- Infrastructure services Portfolio committee
- Budget and treasury Portfolio committee
- Community Services Portfolio committee
- Development planning Portfolio committee
- Executive Support Portfolio committee

The Speaker is a full-time councillor and takes responsibility of chairing council meetings. The Office of the Council-Whip is established to create synergy and to maintain discipline among councillors from various Political Parties. The Role of the Council-Whip covers both the political and administrative domains of council with emphasis on the political aspect. The Council-Whip deals with the well-being and particularly attendance of all councillors. The Council meetings are governed according to the approved rules of order.

The council comprises of 06 political parties namely: African National congress (ANC) with 41 seats, Economic Freedom Fighters (EFF) with 10 seats, Democratic Alliance (DA) with 05 seats, and Bolshevik Party of South Africa (BPSA) with 03 seats, Mpumalanga Party (MP) with 01 seat and South African Maintenance and Estate Beneficiaries Association (SAMEBA) with 01 seat. The Council of the municipality is composed as follows; 54 part-time Councillors, 7 full-time Councillors namely Mayor, Speaker, Chiefwhip, MPAC Chairperson and three members of the Executice committee of council (EXCO) which consist of ten of the council members.

There is a good relationship between councillors as they work cooperatively to achieve the set goals of the municipality. Every year there is a schedule of meetings that is approved by council, in order to ensure that all committees meet regularly to discuss administrative, performance and service-delivery issues. Councillor's participation in various committees is satisfactory. For the year under review, council held 4 ordinary and 7 special meetings. In order to enhance good governance and accountability, Municipality adopted separation of powers model, which separated legislative arm from executive arm. This is in line with the governance approach that seeks to put in place an independent oversight mechanism to ensure that democracy is deepened and that effective public service delivery takes place to benefit EMLM communities. Council has established section 79 committees to play oversight role and monitor the work of the executive and administration.

POWERS AND FUNCTIONS OF COUNCIL WHIP

The Notice on the Upper Limits on Councillor Remuneration has introduced the Office of the Whip of Council in 2006. The Chief Whip of Council is not an Office Bearer in terms of the LG: Municipal Structures Act, so the Council is not legally obliged to adopt a terms of reference for the Whip. It is, however, advisable to commit to a clear definition of the role of the Whip in relation to that of the Speaker. The Council of EMLM resolved to include and elect a Chief Whip in its structure, whilst there are no statutory functions for the Whip of Council, the SALGA Guideline Document on the Roles and Responsibilities of Councillors, Political Structures and Officials (March 2011) cites the following as the functions of the Whip of the Council: -

- Political management of council meetings and committee meetings
- Inform councillors of meetings called by the Speaker and the Mayor and ensuring that such meetings quorate
- Advises the Speaker and Mayor on the Council agenda
- Informs councillors on important matters on the relevant agenda
- Advise the Speaker on the amount of time to be allocated to speakers and the order of such speakers
- Addressing the Council
- Assisting the Speaker in the counting of votes

- Advising the Speaker and the Mayor of urgent motions
- Advising the Speaker and Mayor on how to deal with important items
- Advising the Speaker and Mayor on how to deal with important items not disposed of at a Council meeting

The Council Whip is accountable to the Council

2.1.3 ADMINISTRATIVE GOVERNANCE

The Municipal Manager is the administrative head and act as interlink between the politicians and the administration. Municipal Manager together with all staff members and councillors are responsible for implementing the IDP and Budget and monitoring the progress made to ensure that services are delivered to the people. The Accounting Officer also provides guidance to political office bearers and to all officials in the municipality. There is a good relationship between the Municipal Manager, administration and political office bearers. All administrative issues that need intervention of council are referred to council for resolution.

The administrative components of the municipality comprise of seven (7) senior managers and 32 divisional managers.

COMPONENT B: INTERGOVERNMENTAL RELATIONS

2.2 INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

There are platforms established to maintain relationship between all three spheres of government. The purpose of the platforms is consultation with various interest groups and all other key stakeholders to insure that sectoral issues and projects are well captured within the IDP of the municipality for implementation.

2.2.1 Intergovernmental relations

Municipal officials attended all intergovernmental relations meetings which they were invited and implemented resolutions taken.

2.2.2 District intergovernmental structures

Section 24 of Intergovernmental Relations Framework Act 2005, establishes the district intergovernmental forum to promote and facilitate sound relations between the District and Local municipalities and the forum is chaired by District Mayor. EMLM has a good relationship with Sekhukhune district municipality and all local municipalities within the district. There are different forums conducted by district where officials and politicians from local municipalities are invited to participate. The structures are as follows:

Table 6: District intergovernmental structures

Structures	Directorates	establishment
EXCO Lekgotla	Mayor and Municipal Manager	Provincial
Municipal Manager's forums	Municipal Manager	Provincial and District
IDP forums	IDP Manager	Provincial and District
PMS forums	PMS Manager	Provincial and District
LED forums	LED Manager	Provincial and District
Communicators' forum	Communication Manager	Provincial and District
SDM Disaster advisory forum	Superintendent: Disaster	District
MPAC forums	Council Support Manager	Provincial and District
District Environmental Forum	Manager Environmenta	District
Provincial Waste and Environmental Forum	Manager Environmental	Provincial
Chiefwhip's Forum	Mnager Council support	District and Provincial
District Town Planners Forum	Town Planner	District and Province

The above forums meet quarterly to discuss progress made on service delivery. The forums are facilitated by CoGHSTA representatives and district officials. They are very fruitful forums, as members use this opportunity to share ideas and to learn from each other, in order to improve service delivery.

2.2.3 Provincial intergovernmental structures

Section 16 of Intergovernmental Relations Framework Act 2005, establishes the premier's intergovernmental forum to promote and facilitate sound relations between the Province and municipalities. EMLM has a good relationship with provincial structures, namely CoGHSTA, Premier's Office and the Provincial Treasury. The province coordinated various forums where it met with members from all municipalities in the province, in order to discuss

service delivery issues. Members from CoGHSTA, the Premier's Office and the provincial treasury also form part of those forums. The forums are:

- Provincial intergovernmental forum
- Premier/Mayor's forum
- Provincial monitoring and evaluation forum
- Provincial government communicators' forum
- Municipal Public Accounts Committee forum.
- Provincial Waste Management Forum
- Provincial Town Planners Forum
- Provincial EPWP Incentive Grant Sector Forum
- Provincial IDP Forum
- Provincial Speaker's Forum
- Provincial Chiefwhip's Forum

The forums are very fruitful as any kind of question is clarified, and municipalities that lack capacity are identified and provided with all necessary support.

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

2.3 Introduction

In terms of Municipal Systems Act section 51(b) requires a municipality to establish and organize its administration to facilitate a culture of accountability amongst its staff;

Section 6 (i) states that a municipality must develop a system of municipal governance that compliments formal representative government with a system of participatory governance

Section 18 (i) (d) requires a municipality to supply its community with information concerning municipal governance, management and development.

2.3.1 Overview of public accountability and participation

Municipality uses different kinds of public participation, such as the Mayor's outreach, public meetings and IDP/Budget consultation, stakeholders' meetings in order to promote the culture of accountability.

Through this dictum, the people envisaged for a democracy whose attributes would be; people first in a government of the people by the people, a democracy wherein no decision would be taken without consultation of the people.

1. This was brought to life by the democratic breakthrough of 1994, the adoption of the Constitution in 1996, and the formation of local government in 2000 and the subsequent laws that governs it. Chapter 4 of the Municipal System Act states A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose-
 - a. **encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in-**
 - i. The preparation, implementation and review of its integrated development plan in terms of Chapter 5;
 - ii. the establishment, implementation and review of its performance management system in terms of Chapter 6;

- iii. the monitoring and review of its performance, including the outcomes and impact of such performance;
 - iv. the preparation of its budget; and
 - v. strategic decisions relating to the provision of municipal services in terms of Chapter 8;
- b. contribute to building the capacity of-**
- i. the local community to enable it to participate in the affairs of the municipality; and
 - ii. councillors and staff to foster community participation; and
- c. use its resources, and annually allocate funds in its budget, as may be appropriate for the purpose of implementing paragraphs (a) and (b)

In Elias Motsoaledi Local Municipality, Public Participation is not an abstraction and it is not done merely for compliance, it is a platform for self-determination of the people by the people. The people directs the type of service delivery and type of administration they want. During the year under review both the Mayor and Speaker had numerous outreach programs to engage with communities of Elias Motsoaledi Local Municipality.

During the year under review, the Mayor embarked one Mayor's outreach took place at Ntwane village and one Speaker's forum took place at Luckau village. Further planned outreaches never took place due to the global pandemic of Covid 19.

2.3.2 Communication, participation and forums

Communication and engagement approaches of the municipality plays an important role in contributing to the public's understanding of public service and their engagement with local issues.

Public participation in the municipality is coordinated through the ward committee, petitions committee, public hearings, and IDP and Budget public participation meetings and Mayoral Izimbizos. These forums are also utilized as report back platforms on service delivery matters. The Speaker of Council plays an important role in coordinating public participation. The municipality uses notice boards, website, newspapers, rates payers and Facebook page to spread information, new plans, budget priorities, etc. The work of the Unit is informed by the municipal communications policy and communication strategy, which centralises the communications function in the Communications Unit.

The ward committee structures are used to narrow the gap between the municipality and communities, since ward committees have the knowledge and understanding of the residents and communities they represent. Community Development Workers (CDWs) act as a link between accessing communities in relation to community development initiatives/ programmes.

The IDP forum is constituted by Councillors representatives from business organisations, Magoši, ward committee, CDW, NGOs/ CBOs, government departments, parastatal organizations, Communication forum, Budget steering committee and stakeholder representatives of unorganized groups. The representatives are given an opportunity to represent community interests and contribute knowledge and ideas, building consensus and support for the planning process itself, and ensuring a broader ownership of the outcomes.

Media briefings are held to update the media about the latest information of the municipality. Bulk sms system is used to disseminate prompt information to the community.

2.3.2.1 MUNICIPAL COMMUNICATION PLATFORMS

Social Media

The Municipality uses social media platforms, as part of its communication tool offering, to communicate with residents. Communications Unit is the custodian of Municipal social media account, it also maintains social media accounts by implementing daily posts, responding to service delivery queries and general information about municipal services. The municipal social media account is: <https://m.facebook.com/eliasmotsoaledi.localmunicipality>.

Radio Programme

Radio is one of the Municipality's main communication tools to convey service delivery messages across municipal jurisdiction. Priority for radio interviews is mainly given to political principals, Municipal Manager and the spokesperson/Manager Public Relations to engage directly with residents on municipal plans and programmes and to listen and respond to community complaints. Municipality uses also community radios such as Radio Moutse and Radio Thaba Ntsho.

Municipal Website

The website is the main electronic communication platform for the Municipality to communicate with residents. The updated website continues to ensure that the public has access to the latest information and improvement in the usage of the website included adding some easy to access quick links on the homepage as and when major projects go live;

Newsletter

The Newsletter is one of the Municipality's external communication tools to disseminate information to residents. Municipality utilises newsletters to inform public about municipal decisions and developments. The platform is part of municipal strategy to enhance external engagement to cultivate a culture of engagements.

2.3.3 Ward Committees

EMLM established ward committees in terms of Municipal Structures Act of 1998 and it ought to have 310 ward committee members, which is 10 members per ward. All wards had managed to elect ward committee members. However currently in some wards there is less than 10 due to members who passed on, resigned and others released from their responsibilities by Speaker due to misconducts and couldn't be replaced due to lockdown restrictions. Ward committees reports to Speaker's office on a monthly basis. For the year under review, two ward committee conferences were held. Ward Committees assist members of the community by advising, assisting in organising community meetings and enable them to participate in those public meetings and take decisions that will take service delivery

2.3.4 Public meetings

The purpose of public meetings is to give feedback and account to the community on the implementation of the IDP/Budget of the municipality. Public meetings are utilized as a platform to engage with community member and listen to their needs. During the year under review no public meetings were held in different wards due to the lockdown restrictions, however stakeholders meetings were convened in compliance with lockdown regulations. All meetings held were beneficial, and held as follows.

COMPONENT D: CORPORATE GOVERNANCE

Overview of corporate governance

EMLM has a code of conduct and policies in place that served as guidance on how to execute our functions in a responsive manner. These documents are applicable to everyone in the municipality, as they set out rules, laws, customs and culture of the municipality. All officials, together with political heads, work collectively, guided by policies to deliver efficient service delivery to communities in order to achieve the vision and goals of the municipality

2.5 RISK MANAGEMENT

Section 62(1) (c)(i) of the Municipal Finance Management Act compels the accounting officer to establish and maintain, among others, a system of managing risks faced by the municipality. The EMLM has in place a system of risk management for the municipality to provide some assurance that risks across all functions and levels, that may have an impact on the achievement of objectives, are adequately and proactively anticipated and mitigated. Risk Management processes are coordinated, supported and championed by the Risk Management Department, led by the Chief Risk Officer.

The governance model of operation of the EMLM's systems of managing risk a decentralized one, wherein departments are responsible for performing risk identification, evaluation, mitigation and reporting processes. EMLM's has in place a service of Risk Committee and Audit Committee. The Risk Committee, which comprises of independent external member as a chairperson, is responsible for overseeing the entire risk management system of the municipality. EMLM's Audit Committee also supports the Risk Committee in its risk oversight role. The effective management of risk, is prioritized to ensure that business risks across the organisation are identified and managed on an ongoing basis for the achievement of the municipality's Strategic goals.

The initiatives and actions performed by the Risk Management Unit during 2020/21 include:

- An annual risk assessment conducted and facilitated by Risk Management unit, as a consulting engagement, per directorate, engaging all heads of departments

- Periodic assessments with monthly monitoring on status of risk register, as well as quarterly reporting and recommendations to various statutory and non-statutory committees
- Annual review of risk management documents
- Compilation and monitoring of the risk management implementation plan
- Continuous aim of building a sufficient municipal risk profile to constantly improve risk maturity

- Adding value of “best practice” developments to the Fraud and Risk Management Committee - review of the risk register, incident and emerging risks and corrupt, fraudulent and unethical incidents are now standard agenda items for Risk Management Committee meetings
- Fraud and Risk Management Committee performance evaluation through individual assessments in the form of a questionnaire and the assessment of the approved Key Performance Indicators (KPIs) for the committee
- Regular communication and updates from various professional bodies
- Regular communication between Provincial Treasury (Corporate Governance) and the Chief Risk Officer on risk related matters
- Recommendations for improvement of software being utilised (Ignite Risk Assist Module)
- Risk universe and risk maturity initiatives through comparison reporting and benchmarking
- Exploiting opportunities and strategies through identification of emerging and incident risks
- Progressive application of compliance related documents and processes
- Exploring opportunities through meaningful integration of the functions of ethics, anti-corruption and fraud prevention, occupational health and safety, long term planning, business continuity and disaster management into the risk management objectives and processes
- Business continuity engagements with management to implement the Business Continuity Framework
- Continuous emphasis on fraud and corruption risks and the related risk action plans
- Improved co-operation between the Risk Management Unit and Internal Audit Services (Internal Audit Services), reducing duplication and increasing the sharing of risk information, while respecting Internal Audit Services independence
- Compilation of a COVID-19 Risk Register

One of the main purposes of an Anti-Corruption and Fraud Prevention Policies is to ensure that the Municipality is in compliance with the MSA and MFMA, which requires the Municipality to develop and adopt appropriate systems and procedures that contribute to effective and efficient management of its resources. The following revised policies were adopted by Council for 2020/2021:

- Revised Anti-Corruption and Fraud Prevention Strategy
- Revised Anti-Corruption and Fraud Prevention Policy

2.5.1 RISK FINANCE

Our insurance programs cover property damage, business interruption, public, product and professional liability, and Directors'and Officers' exposures. They aim to protect the Municipality against exceptionally large or numerous claims.

We neither own nor operate any captive insurance: we use only high-quality and financially sound insurers, combining master policies with local insurance policies. Negotiation and coordination of these programs are carried out in the Risk department unit with the help of leading insurance brokers with integrated international networks.

In this way we secure broad and consistent cover for all Municipalities activities and locations, cost optimization, and reporting and control, while ensuring compliance with local regulatory requirements. We review our insurance strategies periodically, taking into account changes in our risk profile (such as acquisitions, claims, loss events and other activities) and insurance market trends.

2.5.2 FRAUD AND ANTI-CORRUPTION STRATEGY

Note: See Chapter 4 details of Disciplinary Action taken on cases of financial mismanagement (T 4.3.6). MSA 2000 s 83 (c) requires providers to be chosen through a process which minimizes the possibility of fraud and corruption.

During the year under review, we have developed an anti-fraud Strategy to prevent, detect, deter, report and respond to fraudulent activities. This is overseen by the Municipal managers office, Anti-Fraud Committee comprising the senior management Group General and Compliance Officer. All managers must report any suspicion of fraud, and our whistle-blowing policy enables employees to raise suspected irregularities. In the event of fraud, managers must make appropriate changes to systems, Controls, education and procedures to prevent recurrence, and the Risk and anti- fraud committee monitors the effectiveness of such actions.

Municipality conducted a fraud risk assessment and trained some key people in anti-fraud, anti-bribery, anti-trust and ethics. In addition, trained by Cogta or fraud and corruption, we also sent out awareness poster to all municipal departments.

BUSINESS CONTINUITY MANAGEMENT

Municipality cannot identify all risk that faces the institution. Therefore, we have business continuity responses designed to improve resilience to unforeseen events – such as a supply chain disruption, employee repatriation, or network intrusion attempts – and minimize their impact on stakeholders and reputation. The business continuity policy and strategy was approved and rolled out to departments for awareness. It encompasses basic escalation and communication rules, guidelines for anticipation and action, and clear roles and responsibilities. Training was limited due financial constrains

2.6 PUBLIC SATISFACTION SURVEY

No public satisfaction survey was conducted during the year under review.

2.8 BY-LAWS

For the year under review, the by-law for Municipal Property rates was reviewed.

2.9 WEBSITE

A municipal website is an integral part of a municipality's communication infrastructure and strategy. If managed effectively, it allows easy access to relevant municipal information, it serves as a tool for community participation, improves stakeholder involvement and facilitates stakeholder monitoring and evaluation of municipal performance. The municipal website is www.eliasmotsoaledi.gov.za Municipality's website is available and functional to assist members of the community and fellow South Africans to easily access municipal information.

2.10. AUDIT COMMITTEE

The Audit Committee of Municipality was established in terms of Section 166 of the Municipal Finance Management Act, Act 56 of 2003. The committee comprises of Five (05) members appointed for the period of three (03) years ending 03 January 2022. Audit committee members they specialises in various expertise ranging from Internal Audit and risk, Performance management, Legal, Information Technology and Finance. Members always complied with schedule of meetings and avail themselves for meetings. They performed their duties as stipulated in Section 166 of the MFMA. Over and above that they assisted municipality in reviewing quarterly financial and non financial reports, annual report and Annual financial statements. Their contribution assisted municipality in obtaining improved audit opinion from qualified to unqualified audit opinion for financial year 2020/2021. Audit Committee reported to council on their activities and recommendations as required by the Audit Committee Charter and section 166 of the MFMA. For the year under review, Four (4) ordinary and Seven (07) special audit committee meetings were held.

CHAPTER 3

SERVICE DELIVERY PERFORMANCE

COMPONENT A: BASIC SERVICES

3.1 ELECTRICITY

Municipality is licensed to provide electricity in 2 wards, which are ward 13 and ward 30 (Groblersdal and Roossenekal areas), and the other 29 wards are Eskom licensed areas. Municipality has a backlog of 4% (3099) households without electricity. A total number of 55698 Households (96%) has access to Electricity (served both Eskom and EMLM). Municipality received an allocation of R 15 Million for INEP in 2020/2021 financial year. For the year under review, Municipality electrified the following villages: Mashemong, Zuma Park, and Ntswelemotse using the allocated funds from INEP. The progress for electrification projects was at 100% at the end of the financial year. Municipality rely on Eskom to supply all other areas within EMLM whereby mostly the challenge is capacity on the network as certain areas could not be electrified until Eskom upgrade the networks.

The status of the two licensed areas can be summarized by the following analysis

Strengths	Weakness
<ul style="list-style-type: none"> • We have 11Kv 1 x 20MVA ring feed for Groblersdal and 11Kv 5MVA overhead for Roossenekal • Stable underground cable network • Qualified human resource • Up to date Eskom Account for both Areas • Ability to complete the Electrification projects • Fleet to service the two areas is available • Provision of high-mast lights to various wards 	<ul style="list-style-type: none"> • Inability to carry out major maintenance due to budget constraints • Deteriorating Network from lack of maintenance • Lack of Bulk statistical metering system • Inability to realise full collection from Consumers at Roossenekal • Lack of revenue enhancement strategy.
Opportunities	Threats
<ul style="list-style-type: none"> • Revenue base can be increased. • We can establish system of improving revenue collection through the use of prepayment • Groblersdal Capacity can be upgraded to 11Kv 2 x 20 MVA 	<ul style="list-style-type: none"> • The loss of the one 20 MVA transformer will pose a problem to Municipal Customers. • Inability of paying Eskom account and Maintaining the high mast lights in various wards due to none payment customers • Skill retention strategy

3.2 WASTE MANAGEMENT

Elias Motsoaledi Local Municipality renders an effective refuse removal service to households and Businesses in the following areas: Motetema, Hlogotlou, Groblersdal, Roosenekal (Town & RDP), Elandsdoring, and Walter Sisulu RDP. Refuse removal service has been outsourced to Just breeze / Tlou ya KO hlaka jv. Municipality provides street cleaning and litter picking services in Groblersdal town only, cleaning of illegal dumps is being done as when as it is required throughout the municipality. The project has created 30 Job opportunities.

3.2.1 Landfill sites:

Municipality has two (2) licensed Landfill sites, namely Groblersdal, Roosenekal and one (1) transfer station at Hlogotlou. The municipality has outsourced the management of landfill sites to Selema Plant Hire. The project has generated 08 job opportunities for the local communities inclusive of all available skills.

3.2.4 FREE BASIC SERVICES AND INDIGENT SUPPORT

EMLM has an indigent policy in place which outlines criteria for registering indigents. Free basic electricity is the only benefit that municipality provides to indigents households. The number of indigent registered in the financial year under review is 6482 and the average number of 1685 was configured by Eskom to receive monthly free basic electricity which is an increase of 5% from 2020/2021 financial year. Municipality provides free basic electricity to both Eskom- and municipal-licensed areas. Municipality budgeted R1,121 million for free basic electricity and the actual expenditure thereof amounted to R1, 472 million. The source of funding for this service is equitable share and the budget provision is relatively low compared to equitable share component for this service.

COMPONENT B: ROAD TRANSPORT

3.3 TRANSPORT OVERVIEW

EMLM has one mode of transport: which is road transport. Communities depend on buses, taxis and their own cars for transportation. There are two bus companies within the municipality, namely Great North Transport and PUTCO. Great North Buses provide services locally in all 31 wards and PUTCO Buses provide services from Groblersdal and Moutse area to City of Tshwane on daily basis. PUTCO service in Groblersdal is available only in the morning and afternoon as compared to Moutse area where the service to City of Tshwane is available the whole day. Most community members rely on buses as the cheapest mode of transport and few utilise taxis and their own cars as mode of transport. Buses are available in all 31 wards to commute people to their destination. Most community members rely on bus services because of their accessibility to remote areas as compared to taxis that use main roads only. The municipality has appointed a service provider for the development of roads and storm water master plan, the objectives is to get the maintenance plan, conditional assessment of the roads and priority list in terms of maintaining and upgrading the municipal roads.

3.3.1 PERFORMANCE ON ROADS

The municipality has a backlog of 1291.73km of gravel roads by the end of the financial year all roads construction projects were completed. The total MIG allocation budget of municipality was R 54 561 018.00 and the actual expenditure was R 54 006 805.93. The municipality has gravel road programme in place. Roads and Storm water are key Municipal functions. Most roads within the Municipality are in a state of decay, with provincial roads in dire need for resealing and surfacing. Gravel roads are also a challenge as most are inaccessible due to lack of storm water controls. The municipality extended the maintenance teams to accelerate its services to every ward through satellite offices. The long term strategy of the Municipality is to surface roads within the municipal area even though the Municipality relies on Grants for roads projects. To improve accessibility to villages, 298.5km has been regavelled and 673.3km bladed.

COMPONENT C: PLANNING AND DEVELOPMENT

3.4 Departmental Overview

The core functions of Development Planning department are as follows;

- Spatial Planning and Land Use Management,
- Upholding building regulations to promote uniform standards in terms of building of structures as per the provision of National Building Regulations and Building Standards Act (103:1977).
- Property Management
- Promoting Local Economic Development
- **Land Use Applications**

The total number of land use and land development applications received and processed within a period of 90 days in twelve (12) months are thirty-seven (37). Those applications as tabulated below were for various uses such as rezoning, subdivisions, consolidations, removal of restrictive conditions, township establishments, consent uses, way-leave services etc. The latter applications were respectively processed by the relevant authority in terms of categorization enshrined in Spatial Planning and Land Use Management Act (SPLUMA), Act no 16 of 2013 read together with EMLM SPLUMA Bylaw, 2016.

All the above applications generated sixty thousand, nine hundred and ninety-six, sixty six cents (R60 996.66). Since the development and planning department is the custodian of land use and land development management, the implementation of Spatial Planning and Land Use Management (SPLUMA), Act no 16 of 2013 is at the core of the departmental functions. In supporting the traditional authorities on proper planning for human settlements, the municipality has lately finalised the process of demarcating two hundred (200) sites for the Bakwena Ba Matsepe (at Tafelkop Makaepa) and Ndebele Tribal Traditional authority's (Luckau Village) respectively. These undertakings sought to create and foster a sustainable and uniform application of land development principles as enshrined in the SPLUM Act (i.e. land use management principles as applicable in previously disadvantaged areas will therefore be applicable in our previously disadvantaged area, namely, townships and village areas.

Presumably, the above arrangement will result in cheaper installation of engineering services (i.e. water, sewer, electricity, storm water and internal roads) and solid waste. The local authority failed to conclude the process of demarcating sites in the above said areas due to the covid-19 pandemic, hence its late completion. The affected parties had to be consulted with regard to progress made thus far which is an approved general plan. The latter needs to be relayed to the affected Traditional Authority who will ultimately allocate stands to needy members of its constituency.

As such, all the above projects were rolled over to 2020/2021 financial year for completion together with the wall to wall land use scheme that municipality has initiated as completed by relevant legislation. To date, the wall to wall Elias Motsoaledi Land Use Scheme (2021) has been finalised and approved by Council. The above program was also disturbed by the inability to consult all the affected parties due to the pandemic at play. The land use scheme is a land use management policy which will cover all areas within the Municipal boundary (i.e. towns, townships, villages, agricultural holdings, farms etc will be indiscriminately covered). Its essence is to promote and foster uniform planning and development approach in the Municipality with the quest of promoting SPLUMA pillars in a form of sustainability, efficiency, spatial justice, spatial resilience and good administration. Therefore, promoting good quality of life for our communities.

The Municipality further subdivided stands in Roosenekal town into smaller manageable stands. The essence of the exercise is to promote optimal use of land and engineering services in order to curb the housing backlog in existence in the area. This program was also stalled by the pandemic since subdivision diagrams couldn't be lodged with the surveyor general as the latter office was also closed. To date, the proposed subdivision has been approved as the Surveyor General's diagram is in place. The Municipality just sought to install engineering services in a form of water, sewer and electricity before the affected can be alienated/sold.

Challenges in a form of land invasion, land use conflict etc are still prevalent and the seek pro active intervention of the Municipality so that they can be neutralised.

3.14.1 Building Control

Building Control is a statutory function assigned to local authorities in terms of the Constitution. The National Building Regulations and Building Standards Act (Act 103 of 1977) also assigns duties to local authorities, the most important of which are the approval of building plans applications, enforcement of the regulations and the issuing of certificates of occupancy.

The National Building Regulations and Building Standards Act No. 103 of 1977 makes provision for the promotion of uniformity in the law relating to the erection of buildings in the areas of local authorities; for prescribing building standards, and for matters connected therewith.

The building control give effects to the provisions of the act by fulfilling its functions by controlling and regulating the following building activities:

- Erection of new buildings
- Alterations/extensions/conversions of existing buildings
- Demolition of existing/structures

In addition, the other services by building control division include the following:

- Building plan approval
- Minor works permit approval(for work such as swimming polls, small' wendy' houses etc)
- Temporary structure permits
- Demolishing permits
- Building inspection during the construction period
- Issuing of occupancy certificates
- General enforcement of building regulations
- Investigations and resolving building complaints, contraventions and illegal building work
- Maintaining statistics on building construction activity.

3.14.2 Building plans applications

The total number of building plans applications of more than five hundred (500) and less than square metre received and processed. Those applications were in the form of dwellings, commercial, industrials, churches, and also alterations and additions of buildings.

Number Sites Visited	Inspcetions Conducted	Withdrawn Applications
151	196	0

3.14.3 Site Development plans applications

The total number of site development plans received and processed were thirteen (13)

3.14.4 Revenue collected

The total revenue collected as a result of the above mentioned services provided is nine hundred and ninety two thousands, seven hundred and ninety rands, sixty three cent (R 992 790.63).

3.14.5 Occupation certificates issued

The total number of occupation certificates issued for commercial and dwelling buildings is twenty three (23).

3.14.6 Building Inspections

More than five hundred (500) construction sites were visited to ensure compliance and enforcement of building regulations. In addition, five (5) non-compliances were issued and two (2) of them resolved by complying as the law required.

3.15 Challenges and Opportunities

This entails problems that currently experienced by the local authority and have a bearing in land development matters in general. In addition, opportunities to that effect are also tabled in order to privilege the community with possible opportunities the municipality is likely to harness.

Challenges

- Land invasion, unlawful demarcation of sites and selling of stands on municipal and state owned land
- Mushrooming of informal settlements,
- Poorly managed stated owned properties i.e. houses that are owned by the Department of Public Works in Groblersdal.

Opportunities

- Agriculture potential
- Groblersdal - a provincial growth point, it is also host to strategic roads, i.e. the R25, N11 that provide accessibility to major urban centres
- Availability of municipal land for development.

Municipality had to scale down its duties as prescribed by building control regulations due to Covid-19 pandemic to limit possible cases of contact with the public and ultimately spread of the virus.

3.14 Local Economic Development.

Elias Motsoaledi Local Municipality supports participative strategies for local economic development in its area of jurisdiction, with the aim of promoting economic growth geared to local conditions and resources, creating income and employment opportunities for all segments of the population and enhancing good governance at local level.

The municipality is operating in a market economy wherein the engines of economic development are primarily in the hands of private businesses that create wealth and jobs however the private sector cannot succeed without favorable business conditions in which to thrive and grow. The municipality is currently working hand in gloves with other public sector institutions in helping to establish and maintain those favorable business conditions so that firms that operates within the jurisdiction of the municipality can compete successfully and fairly with firms from other regions.

Given the above conditions and the roles that the municipality has played in pursuit of local economic development in 2020/2021 financial year are amongst others; that the municipality in collaboration with Department of Public Works has managed to create 1175 work opportunities through EPWP and CWP programmes. There was a decline of jobs created through the latter programs as only one thousand one hundred and seventy-five (1175) were created. . CWP accounted for one thousand one hundred and six (1064) and EPWP for sixty-nine (71). The appointed personnel is mainly responsible for cleaning but not limited to public facilities/infrastructure in a form of roads reserves, graves, community halls, schools, taxi ranks, streets etc.

In striving to capacitate the SMMEs and cooperatives the municipality, four networking events were organised by the Municipality. This undertaking provided a platform for SMME's share experiences, mentor one another etc. Furthermore, twelve (12) SMME's and cooperatives attended workshops and training as organised by the Municipality. The training and workshops involved basic business management approaches. There was a shortfall of two (2) workshops since the annual target was fourteen (14) workshops/trainings to be conducted In addition, EMLM Local Economic Development Strategy (2014) was reviewed in order to keep it abreast with the latest development so that its response to current challenges as experienced by the larger business community.

Municipality has issued only seven (7) business licenses since the function has been transferred wholly to the local authority by the Department of Local economic development and Tourism (Limpopo).

* - Extended Public Works Programme		

The program experienced some sporadic exits of participants before finalisation of contracts. In the light of the latter situation, it was cumbersome to replace some of the participants with the quest of maintaining the set target of seventy (71) participants. The program ended up with sixty nine (69) participants. The affected wards were 13, 14, 22, and 23. Lastly, the program was bankrolled with one million, six hundred and eighty one thousand (R 1 681 000).

Cemeteries in rural areas are without fencing and ablution facilities. The municipality is responsible for cleaning and cutting grass in cemeteries as and when the service is required. There is a grave digging service in Groblersdal cemeteries only and in other wards, graves are dug by community members.

3.17.3 SAFETY AND SECURITY

3.17.3.1 Traffic

The Municipality provides public safety services through effective and informed Law-enforcement of the National Road Traffic Act, National Land Transport Act, National Land Transport Transition Act and the Municipal By-Laws. Other services provided also include but are not limited to escorts and point duties that promote the free flow of traffic at accidents and events or marches. The Traffic Division also aims at having a well-informed and educated public by working together with the Limpopo Department of Transport (Road Safety division) in their Educational and Road Safety programs. The purpose of safety and security unit is to ensure that vehicle and pedestrian traffic are controlled effectively (24) twenty-four hours a day (365) three hundred and sixty-five days a year. Municipality works jointly with Limpopo Provincial Department of Transport and the SAPS to reduce accidents during the festive seasons that include the Easter - and Christmas holidays.

3.17.3.2 Licensing

Elias Motsoaledi Local Municipality is a registered Registration Authority with a Grade A Driving License Testing Facility and a non-functioning Grade A Vehicle Testing Facility. The Licensing Division is a core revenue generating part of the municipality with a well-developed organizational structure to ensure uninterrupted, effective and efficient service to the public. The municipality uses electronic Learners License. The electronic learners' license is the corrective measure implemented to curb corruption in the DLTC. The system is user-friendly and 100% fair and has been found to eliminate fraud and corruption in the Learners License tests.

3.18 EXECUTIVE AND COUNCIL

Executive committee is the principal committee of the council which receives reports from the other committees of the council and which must forward these reports together with its recommendations to the council when it cannot dispose of the matter in terms of its delegated powers. The executive committee must identify the needs of the municipality, review and evaluate those needs in order of priority. The committee recommends to municipal council strategies, programmes and services to address priority needs through the integrated development plan and estimates of revenue and expenditure, taking into account any applicable national and provincial development plans

The municipality comprises of three service delivery priorities which is the roads, waste management and electricity. The municipality is having 1765 kilometers of roads. For the year under review, 14 kilometres of roads were constructed. Due to the vastness and rural nature of the municipality, priority is given to roads functions to ensure that internal roads are maintained for accessibility to community members for them to access municipal services.

3.19 HUMAN RESOURCE SERVICES

The Human Resources Division with the total staff number of 07 permanent employees. The department is responsible for the following services: Organisational development, Occupational health and safety services, training and development, labour relations, Benefits and administration, payroll. It is responsible for recruitment processes, benefits and leave administration, disciplinary procedures, skills and capacity development, pay roll, employee health and wellness, and labour relations issues.

3.20 INFORMATION TECHNOLOGY

EMLM has ICT unit in place with the total number of 06 officials and most of the services are outsourced. ICT unit is responsible for running daily, weekly, monthly data and backups. It ensures that municipal website is always functional and provides user support. There is a helpdesk where all ICT related queries are forwarded through emails and Technicians will respond to those queries in sufficient time. ICT unit ensures that network is always available to all municipal applications such as Munsoft, emails, internet, payroll system and leave system for efficient and effective service delivery.

4.4 PERFORMANCE MANAGEMENT

In EMLM, performance management is limited to Section 56 Managers. The municipality has conducted the 2019/2020 annual performance assessments for 03 Senior Managers who signed performance agreements and no senior manager qualified for performance bonuses. The 2020/2021 mid-year assessment was also conducted as a monitoring process to detect poor performance at an early stage. Through the session, senior managers are offered an opportunity to state their challenges and be assisted by panel members based on those challenges in order to meet their set targets by the end of the financial year. During the year under review the following officials signed their performance agreements:

COMPONENT C: CAPACITATING THE MUNICIPAL WORKFORCE

4.5 Skills development and training

Municipality has a work skills plan (WSP) that is utilised for personnel capacity building. Each department is requested to forward their training plans to corporate services in May each year, in order to be included in the WSP which serves as a guide as to how many officials should undergo training in the next financial year. The plan is also used to determine the expenditure for training. For the year under review, 50 (29 males and 21 females) employees received different training. The WSP and annual training report were submitted to LGSETA.

Municipality budgeted R 1 539 411 that was adjusted downwards during adjustment budget to R712 440 for personnel training. The total amount was spent on training by end of the financial year. Municipality did receive the mandatory grants in the form of rebates from LGSETA for the funding amounting to R101 588 of HR students workbased exposure training in prior year however the amount was spent in the year under review.

COMPONENT D: MANAGING THE WORKFORCE EXPENDITURE

4.6 EMPLOYEE EXPENDITURE

The municipality manages its workforce expenditure very well, as we have policies in place such as overtime policies, and travelling allowance policies, that are complied with before any expenditure can be incurred. EMLM has the organisational structure that is aligned to the IDP and budget, to ensure that all workforce expenditure has been budgeted for.

4.7 DISCLOSURE OF FINANCIAL INTEREST

Disclosure forms are given to all officials and councillors at the beginning of the financial year for completion

COMMENT ON FINANCIAL PERFORMANCE

Revenue

Property rates

The original budget for property rates for 2020/21 financial year was R38, 345 million and the actual revenue billed is R39, 442 million. This gave rise to an favourable variance of 3% and 3% respective on original budget and adjusted budget.

Service charges

This is made up of service charges for electricity and refuse removal and the original budget thereof was R110, 873 million that was adjusted downwards to R99, 873 million and the actual revenue billed was R97, 738 million that reflects a 13% and 2% unfavourable variance respectively on both original budget and adjusted budget.

Investment revenue

The investment revenue is mainly interest earned on the external investments that the municipality has made throughout the financial year. Interest on investments budget was adjusted downwards to R540 due to under performance in the first few months of the financial year, and this resulted in the actual interest earned exceeding the adjusted budget by R4, 214 million. The performance of this revenue line item reflects an improved investment practice of the municipality.

Transfer recognized – operational

This is revenue realized from both conditional and unconditional operating grants and subsidies including equitable share. The results show full spending of on unconditional grants and on conditional grants R1, 206 million is unspent, and with regards to conditional grants spent, all grants were spent in line with the conditions of the respective grants.

Other Income

The over performance of other revenue is attributed to revenue from clearance certificates and advertisement boards. This revenue is hard to accurately project due to its dependency on the rate of consumers who turn up for those revenue related activities, and hence the inconsistencies between the budget and actuals thereof.

Expenditure

Employee related cost

The employee related cost was budgeted downwards based on the performance of the past six months, that was influenced by the non-appointment of the vacant position. In addition, the over performance has partially resulted from actuarial gains and losses as well as other actuary related expenses that were not incorporated in the budget particularly on original budget.

Remuneration of Councillors

Remuneration of Councillors relates to salaries of Public Office Bearers and the original budget thereof was R26, 525 million that was adjusted downwards to R26, 293 million and the actual expenditure incurred amounted to R24, 845 million.

Depreciation and asset impairment

Provision was made in the budget for capital asset depreciation and impairment and the budget thereof was R55, 163 million and it was reduced from the 2019/20 actuals, due to the disposals planned to be incurred in 2020/21, however number of assets that were not included in the asset register were included; some assets were incorrectly valued and donated assets no accounted for and this resulted in depreciation and assets impairment increasing from R55, 163 million to R57, 163 million and the actual overspend with R1, 625 million.

Materials and bulk purchases

This line item was mainly for purchase of electricity. The bulk purchase expenditure was within the approved budget thereof and this gave rise to a favourable variance of 10% and the adjustment budget was slightly unfavourable with the variance of 6%. Other materials mainly relate to materials and supplies relating to both repairs and maintenance and cleaning materials. The actual expenditure thereof is within the adjustment budget by variance of 8%.

Transfers and grants – expenditure

Transfers and grants refer to subsidies made to indigent and pensioners consumers, external bursaries awarded, and medical aid contributions made to pensioners who are former employees of the municipality. The subsidies were done in the form of special rebates on property rates and free basic electricity.

The budget provision still appears to be too little in light of Equitable share allocation that amounted to R347, 525 million since this is the source of funding thereof. The number of registered indigents is still little and hence the underspending of R367 thousand of the budget allocated for this subsidy.

Finance charges

Finance charges is mainly interest on finance lease and this was informed by the amortisation schedule thereof. The original budget thereof was R1, 184 million the budget was later revised and led to upward adjustment to R2, 633 million. The actual expenditure incurred was R2. 123.

Other expenditure

Other expenditure line item includes items such as debt impairment; contracted services; lease rentals on operating lease; loss on disposal of property, plant and equipment as well as general expenses.

Total Operating Transfers and Grants	1,201,527	1,389,819	1,410,166	1,289,653	1,410,166	93%	91%

COMMENT ON ASSET MANAGEMENT:

The actual asset register value for 2019/20 is R1 116 billion and the original budget thereof was R1, 271 billion. Taking the actual book value as at end of 2020/21 financial year of R1 153 billion, and the asset register value had increased and this attributed to high spending on capital budget and assets that were not included in the register and incorrectly valued in the previous financial years that are now recorded in the register.

Depreciation and asset impairment amounts to R55 163 million and it's a increase of R2 million. Cognizance should be taken that depreciation and asset impairment from budget point of view is a non-cash item (i.e. the movement did not have cash flow implication) and as a result it is pure financial accounting transaction.

In addition, capital expenditure (renewal of existing assets) amounting to R53, 543 million and repairs and maintenance amounting to R24 225 million was incurred during the 2020/21 financial year.

COMMENT ON REPAIR AND MAINTENANCE EXPENDITURE:

The repairs and maintenance budget represent 3% of the total original budget and 5% of the adjusted budget and in terms of the actual expenditure, the spending represent 5% of the total operating expenditure incurred for 2020/21 financial year. A total of R24, 225 million was spent, reflecting an overspending variance of 158% based on original budget and under-spending variance 92% based on adjusted budget.

5.4 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS

Graph 1: Liquidity ratio

Liquidity Ratio – Measures the municipality's ability to pay its bills, and is calculated by dividing the monetary assets by the municipality's current liabilities. A higher ratio is better and the graph portrays a picture that shows an improved liquidity ratio for 2020/21 financial year since the ratio is more than 1.

Graph 2: Outstanding Debtors to revenue

Outstanding Service Debtors to Revenue - Measures how much money is still owed by the community for electricity, waste removal and other services, compared to how much money has been paid for these services. It is calculated by dividing the total outstanding debtors, by the total annual revenue thereof. A lower score is better. The graph shows that the municipality has a ratio of 1.49 outstanding debtors that has slightly decreased by 0.75 when compared to 2019/20 ratio.

Graph 3: Employee cost

Employee related cost ratio measures what portion of revenue was spent on paying employee costs. It is calculated by dividing the total employee cost by the difference between total revenue and capital revenue

Graph 4: Repairs and maintenance

Repairs and Maintenance - This represent the proportion of operating expenditure spent, and is calculated by dividing the total repairs and maintenance by total revenue excluding capital revenue.

COMMENT ON FINANCIAL RATIOS:

The municipality is still facing a challenge of achieving 8% threshold of operating expenditure for repairs and maintenance. Liquidity ratio is negatively affected by invoiced that are paid accruals at year end since the magnitude thereof was too high in 2020/21 financial year as those invoices are treated as current liabilities. The municipality is in a process of implementing cost containment measures as documented in the National Treasury Instruction letter number 03 and this will result in improved liquidity ratio and in addition, it will do away with unnecessary expenditure.

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET

INTRODUCTION TO SPENDING AGAINST CAPITAL BUDGET

Capital expenditure relates mainly to projects and/or items whose outputs will result in assets that will have to be documented in the asset register. Capital expenditure is funded from grants and own revenue. Component B deals with capital spending, indicating where the funding comes from and whether the Municipality is able to spend the available funding as planned. In this component, it is important to indicate the different sources of funding as well as how these funds are spent.

COMMENT ON CAPITAL PROJECTS:

During 2020/21 Financial Year, the Municipality received a Total Allocation of **R54 561 018.00** of MIG grant. A total of five (6) projects were implemented, of which four (4) were roads projects and one (1) was Landfill site. All 5 road projects were completed at end of the financial year. The landfill project is on hold due the changes of the design as per LEDET requirements.

5.8 BASIC SERVICE AND INFRASTRUCTURE BACKLOGS - OVERVIEW

INTRODUCTION TO BASIC SERVICE AND INFRASTRUCTURE BACKLOGS

There is still huge backlog in terms of Basic Infrastructure that is Water and Sanitation, which is implemented at District level. The backlog for Electricity is only 4%.

Service Backlogs as at 30 June 2021				
Households (HHs)				
	*Service level above minimum standard		**Service level below minimum standard	
	No HHs	% HHs	No HHs	% HHs
Electricity	66 330	95.3%	3112	4.7 %
Waste management	66 330	0%	66 330	16.5
Housing				

% HHs are the service above/below minimum standard as a proportion of total HHs. 'Housing' refers to * formal and ** informal settlements.

COMMENT ON BACKLOGS:

There is a minor backlog in terms of electricity only 4% backlog has been identified with regards to households that do not have access to basic electricity. This backlog is due to expansion of the existing villages.

Roads and storm water as key function of the municipality is being implemented by MIG funds and own funding. The municipality has a serious backlog on roads and storm water and has challenges of resources and lack of funding to enable them to deal with the backlog. The identified backlog of unsurfaced roads and storm water controls is up to 92% on the municipal road networks.

COMPONENT C: CASH FLOW MANAGEMENT AND INVESTMENTS

INTRODUCTION TO CASH FLOW MANAGEMENT AND INVESTMENTS

The cash flow outcome presents the actual revenue collected and actual payments made during the year under review. Actual revenue realized should be differentiated from revenue billed because revenue billed does not portray the holistic financial position and performance of the municipality.

As a result, the cash flow outcome is presented on cash basis as opposed accrual basis of accounting.

Cash and cash equivalent of the municipality is made up of cash in the primary and all the short term investment. There are no long term investment made by the municipality as this will hinder service delivery.

COMMENT ON CASH-FLOW OUTCOMES:

Cash and cash equivalent at the beginning of the financial year was R1, 929 million and when comparing this to the cash and cash equivalent as at end of 2020/21 financial year, the results reflects a increase in cash and cash equivalent of R4, 919 million and this portrays a negative picture about cash management of the municipality and this is supported by unfavourable liquidity ratio. Cognizance should be taken that the municipality is still dependent on grants since a major portion of revenue realized is made up of transfer recognized (both operating and capital).

SUPPLY CHAIN MANAGEMENT

The financial statements for the 2020/21 financial year presents an irregular expenditure balance of R299, 582 million as opening balance and during the year irregular expenditure amounting to R77, 379 million was incurred. This leaves the municipality with overall irregular expenditure of R376, 961 million that emanated from procurement of goods and services without fully following the supply chain management processes. For 2020/21 financial year none of the year to date irregular expenditure was written off by Council of the municipality.

The municipality has implemented central supplier database that has been rolled out by National Treasury with the intention of maintaining a database of organisations, institutions and individuals who can provide goods and services to government institutions. This database serves as the single source of key supplier information for organs of state and it provides consolidated, accurate, up-to date, complete and verified supplier information to procuring organs of state.

5.13 GRAP COMPLIANCE

GRAP provides the rules and principles by which municipalities are required to abide by in preparing the financial statements. Successful GRAP compliance and implementation will ensure that municipal accounts are transparent, comparable and more informative to the users of the financial statements.

Elias Motsoaledi local municipality was audited on annual financial statements that were prepared using mSCOA trial balance and general ledger that were GRAP compliant.

APPENDIX G - RECOMMENDATIONS OF THE MUNICIPAL AUDIT COMMITTEE

1st ORDINARY AUDIT COMMITTEE MEETING – 09 NOVEMBER 2020

MANAGEMENT REPORTS

ITEM NO	ITEM UNDER DISCUSSION	RECOMMENDATIONS
AC 20/1	2020/2021 Final Annual Performance Report	<ul style="list-style-type: none"> Audit Committee raised a concern that the expenditure amounts do not correspond with expenditure amounts in the Completion Certificates. Chairperson recommended that Manager PMS should report KPI's as not achieved on the final submission if there is no POE to support the achievement or the POE does not correspond with the SDBIP to avoid reliability finding Chairperson recommended that the correct Completion Certificate should be submitted for verification of expenditure amounts
AC 20/2	2020/2021 1st Quarter Performance Report (July-September 2020) (MM)	<ul style="list-style-type: none"> Audit Committee raised a concern that Institutional performance of 50% for the KPI's set for 1st quarter of 2020/2021 financial year seem to be low.
