- Partnership, cooperation and meaningful and effective consultation with all relevant stakeholders;
- Creation of a climate conducive to transformation and change;
- Embracement and celebration of diversity; and
- Compliance with the LAWS applicable in the Republic of South Africa land.

## 8. POLICY CONTENT

The responsibility for implementing affirmative action measures and ensuring compliance with the provisions of the Employment Equity Act 55 of 1998 rests with the Municipal Manager or his / her delegated assignee(s). The following Affirmative Action (AA) measures have been identified and developed to address the employment barriers and under-representation identified during the analysis and review of employment policies, practices, procedures and working environment of the Municipality, EMLM. The measures relate to, but are not limited to the following:

- **Affirmative Action Measures**

- ***Increasing the pool of available candidates***

A policy on recruitment has been adopted which provides for the internal and external recruitment of suitable candidates from designated groups. A concerted effort will further be made to increase the level of interest of potential candidates from designated groups in applying for vacancies.

- ***Appointment of employees from designated groups***

Existing policies have been scrutinised to identify employment barriers to members of designated groups, and appointment and selection policies should increase the possibility of appointing candidates from the designated groups in employment categories and levels where they are under-represented. This would include transparent, fair and unbiased selection criteria, selection panel. These would help contribute to the appointment of suitable candidates from designated groups. Further efforts will include:

- The review of employment application forms and contracts so that all discriminatory or prejudicial provisions and clauses are removed.
- Increased awareness that psychometric tests and evaluation methods tend to be culturally biased and discriminatory and have low predictive validity of true ability of candidates to perform in a work environment.
- The use of competency-based recruitment and selection methods whereby the potential of the candidate and the ability to perform the job plays an increasingly prominent role.
- Compliance with numerical targets and annual benchmarks.
- The advancement of designated groups, but bearing in mind that the Municipality will not resort to window-dressing, tokenism and favouritism.
- Recognising that the appointment of members of designated groups will help create a more diverse workforce, which holds social and economic benefits for the Municipality.

▪ ***Training and development of people from designated groups***

Training, within available means and resources, should be provided to members of designated groups where particular skills do not exist. The Municipality recognises the obligations placed on it by the Skills Development Act 97 of 1998 to train and develop employees and has adopted structured training programmes for employees. These programmes could include:

- Bursaries for secondary and tertiary education;
- Job-related training;
- Training in line functioning, management, and supervisory skills;
- Learnerships;
- Internship;
- Coaching;
- Mentorship or mentoring programmes or mentorship;
- Skills programmes; and
- Diversity management or diversity training.

Access to training by members of designated groups, including accelerated training for new recruits is, within the available means and resources, necessary since their development is seen as long-term upliftment measure as against a temporary corrective measure. The eventual goal is the outcome-based nature of the training provided and the purpose of the training to accelerate the advancement of designated groups within the Municipality.

▪ ***Retention of people from designated groups***

The Municipality is committed to lowering the turnover rates and increasing the retention rates of designated groups by conducting and considering a labour turnover analysis. Accordingly, the Municipality has adopted a new policy regarding exit interviews in order to enable the Municipality to develop further strategies regarding the retention of people from designated groups by determining the reasons why people from designated groups terminate their services with the Municipality. This will also enable the Municipality to compete successfully with other employers in an effort to obtain and retain the services of people from designated groups.

▪ ***Reasonable accommodation for people with disabilities***

The Municipality recognises reasonable accommodation measures for people with disabilities, with specific reference to adapt physical facilities that will be implemented gradually and progressively, within available means and resources, with a view to making the grounds and buildings accessible to people with disabilities. This would form part of an enabling environment for them to participate fully and improve municipal

productivity. Special attention will be given to the employment and career development of people with disabilities led people.

- ***Meaningful participation in strategic decision-making processes***

The Municipality should ensure that candidates from the designated groups have the opportunity to be appointed and promoted in positions where they will be able to participate meaningfully in the decision-making of the Municipality. The recruitment policy regime would require candidates to be suitably qualified for positions they will be appointed and/or in accordance with the Employment Equity Act 55 of 1998. A conscious effort should be made to avoid all forms of tokenism.

- ***Steps to ensure that the corporate culture of the past is transformed in a way that affirms diversity in the workplace and harness the potential of all employees***

The Municipality also recognises the importance of managing a diverse, multiracial and multicultural workforce, for the purposes of ensuring the maximum utilisation of all employees. This includes reducing negative stereotyping and discrimination, creating an acceptable and welcome environment, and the integration of affirmative action programmes with general management practices and strategies to the extent of sensitising employees with regard to grounds of discrimination such as race, diversity, gender, disability and religious accommodation.

- **Corrective Measures to Eliminate Barriers Identified During the Analysis**

Employment policies and practices are continuously reviewed by the Municipality in order to remove any possible discriminatory content, to eliminate employment barriers from the policies and practices, to allow for the definition of suitably qualified candidates as contained in the Employment Equity Act 55 of 1998 to serve as standard for selection. The affirmative action measures implemented at the Municipality are designed to prevent the creation of absolute barriers for the appointment or promotion of persons from non-designated groups, and care is taken to ensure that the measures adopted do not discriminate in any way against persons from the non-designated groups.

- **Numerical Goals**

A numerical analysis shall be carried out to determine the representation of employees in every employment level and job category. This analysis will enable the Municipality to set quantitative targets which are realistic and attainable given the particular circumstances of the Municipality as an employer. Numerical goals shall be developed for the appointment and promotion of people from designated groups in order to address under-representation of the designated groups, thereby increasing their representation in each occupational category and level in the municipal workforce and to make the workforce reflective of the relevant

municipal demographics. The following factors shall be taken into consideration in developing the numerical goals:

- The degree of under-representation of designated employees in the various employment categories at the Municipality as determined by the numerical analysis.
- The present and planned vacancies;
- The pool of suitably qualified persons from designated groups, from which the employer may be reasonably expected to draw for recruitment purposes;
- The labour turnover rate at the Municipality must be determined to guide implementation rate of affirmative action measures and the setting of numerical goals; and
- Other factors as contained in Item 8.4 of the Code of Good Practice: Employment Equity Plan,

- **Consensus**

The representative unions and the management structures of the Municipality must be involved in the consultation process surrounding the numerical analysis, the review of employment systems and policies and the drafting of the Employment Equity Plan. There must be meaningful consultation with parties striving to reach consensus in the consultation process. Workshops, attended by representative trade unions and management, may be held, to *inter alia*, inform and educate all parties as to the process to be followed and the roles to be played by parties.

- **Employment Equity Consultation Forum and Composition**

Regard being had to Item 7.2.8 of the Code of Good Practice: Employment Equity Plans, an Employment Equity Consultative Forum shall be established to consider progress reports and meet on a regular basis. Such meetings should take place at reasonable intervals in order to ensure feedback and inform ongoing implementation. The forum shall be constituted as follows:

- 1 member of senior management;
- 2 trade unions representatives nominated by the trade unions; (i.e 1 from IMATU and 1 from SAMWU); and
